

Great Lakes Resurgence

A communications partnership tells stories of how cleanup efforts
across the region are bringing life to local waterfronts

The Great Lakes Sea Grant programs recently teamed up with National Geographic photographer Peter Essick to capture the sights, people and work taking place around the region. The partnership resulted in an interactive web feature that tells many of the stories about the region's environmental recovery.

Funding and Career Opportunities

[Sea Grant Career Opportunities:](#) Sea Grant has several job openings at Sea Grant programs across the country, including new openings in Florida, Massachusetts, Minnesota, and North Carolina.

[NOAA Marine Debris Prevention Funding Opportunity](#)

The NOAA Marine Debris Program recently announced a funding opportunity that supports projects which actively engage and educate a target audience (such as students, teachers, industries, or the public) in hands-on programs designed to raise awareness, provide practical approaches, reduce barriers, and encourage and support changes in behaviors to ensure long-term prevention of marine debris.

[California: Science Communications Fellowship](#)

The California Sea Grant Science Communication Fellowship provides a unique educational opportunity for an early career science communicator to gain hands-on experience in marine and coastal science communication. The fellow will be placed at California Sea Grant's office at the Scripps Institution of Oceanography, UC San Diego for a 12-month paid fellowship. Deadline: October 31, 2019

[Support the Karl Havens Excellence Fund](#)

Florida Sea Grant is working to establish a sustained student-focused research program on water quality in memoriam of the program's recently passed director, Dr. Karl Havens.

[NOAA/OAR Office of Weather and Air Quality \(OWAQ\)](#) is now accepting applications for federal funding through the Fiscal Year (FY) 2020 OWAQ Notice of Funding Opportunity (NOFO). For FY2020, OWAQ is soliciting proposals to three competitions: the Joint Technology Transfer Initiative (JTII), Climate Testbed, and Verification of the Origins of Rotation in Tornadoes Experiment Southeast (VORTEX-SE). For all three competitions, full proposals will be accepted until 5:00 p.m. ET November 20, 2019. <https://www.grants.gov/>
