

# Hello.

## Quick Start Guide

Welcome to your new MacBook Pro. We'd like to show you around.

Let's get started

When you start your MacBook Pro for the first time, Setup Assistant launches to get you going. Follow a few simple steps to connect to your Wi-Fi network, transfer your stuff from another Mac or a PC, create a user account for your Mac, and log in with your Apple ID.

Your Apple ID lets you download apps from the App Store, shop the iTunes Store and the Apple Online Store, access iCloud, and communicate using FaceTime. If you don't have an Apple ID, creating one is easy and free.

Let's get moving

It's easy to move files like documents, email, photos, music, and movies to your new Mac from another Mac or a PC. The first time you start your new Mac, it will walk you through the transfer process. All you have to do is follow the onscreen instructions.

Multi-Touch gestures

Many functions on your MacBook Pro can be performed using simple gestures on the trackpad. Here are some of the most popular Multi-Touch gestures for the Mac.

**Click**  
Press down anywhere on the trackpad to click. Or, with Tap to Click enabled, simply tap the surface.

**Double click**  
Press down two times anywhere on the trackpad. Or, with Tap to Click enabled, double-tap the surface.

**Pinch to zoom**  
Zoom in and out of photos and web pages more precisely by pinching your thumb and finger.

**Rotate**  
Turn your thumb and finger clockwise or counterclockwise to rotate an image.

**Secondary click (right click)**  
Click with two fingers to open shortcut menus. Or, with Tap to Click enabled, tap two fingers anywhere.

**Two-finger scroll**  
Brush two fingers along the trackpad to scroll in any direction—up, down, or sideways.

**Switch between full-screen apps**  
Swipe with three fingers to move from one full-screen app to another.

**Swipe to navigate**  
Swipe with two fingers to flip through web pages, documents, and more.

**Smart zoom**  
Double-tap the trackpad with two fingers to quickly magnify a web page.

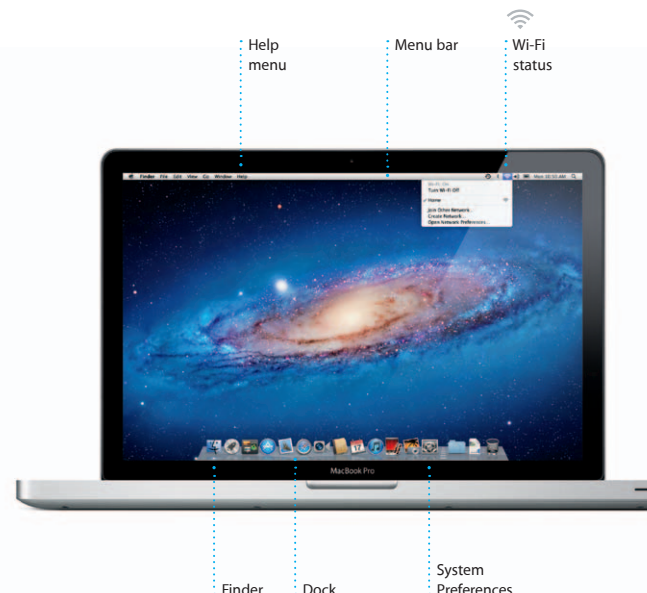

**View Launchpad**  
Pinch with four fingers to view all your apps in Launchpad.

**Learn more**  
Choose System Preferences from the Apple menu and click Trackpad to learn more about gestures.

Get to know your desktop

Welcome to your new home base. The desktop contains the Dock, where icons of your frequently used apps appear. To customize your desktop and other settings on your Mac, click the System Preferences icon in the Dock. To access your files and folders, click the Finder icon. To check the status of your wireless Internet connection, click the Wi-Fi status icon in the menu bar. Your Mac automatically connects to the network you chose during setup.

iCloud

iCloud stores your music, photos, mail, and more and wirelessly pushes them to your Mac, iPhone, iPad, iPod touch, and even your PC. All without docking or syncing. So when you buy a song on one device, it's automatically downloaded to all your others. And with Photo Stream, your latest photos appear everywhere you want to see them. To customize your iCloud settings, open the Apple menu, select System Preferences, then click iCloud. Sign in with your Apple ID and choose the iCloud features you want to enable or disable.

Important

Read this document and the safety information in the Important Product Information Guide carefully before you first use your computer.

Learn more

You can find more information, watch demos, and learn even more about MacBook Pro features at [www.apple.com/macbookpro](http://www.apple.com/macbookpro).

Help

You can often find answers to your questions, as well as instructions and troubleshooting information, in Help Center. Click the Finder icon, click Help in the menu bar, and choose Help Center.

Mac OS X Utilities

If you have a problem with your Mac, Mac OS X Utilities can help you repair your computer's drive, restore your software and data from a Time Machine backup, or erase your hard drive and reinstall OS X Lion and Apple applications. You can also use Safari to get online help. If your Mac detects a problem, it opens Mac OS X Utilities automatically. Or you can open it manually by restarting your computer while holding down the Command and R keys.

Support

Your MacBook Pro comes with 90 days of technical support and one year of hardware repair warranty coverage at an Apple Retail Store or an Apple Authorized Service Provider. Visit [www.apple.com/support/macbookpro](http://www.apple.com/support/macbookpro) for technical support on MacBook Pro. Or call 1-800-275-2273. In Canada, call 1-800-263-3394.

### Launchpad

Launchpad is the home for all the apps on your Mac. Just click the Launchpad icon in the Dock. Your open windows are replaced by a full-screen display of all your apps. Arrange apps any way you want,

**Open Launchpad**  
Click the Launchpad icon in the Dock.

**Folders**  
Group apps in folders by dragging one app on top of another.

**Dashboard**  
Located at the top left for easy access.

**Open Mission Control**  
Click the Mission Control icon in the Dock.

**Add desktop spaces**  
Click the + button to the right of the top row to add a new space.

Mission Control gives you a bird's-eye view of everything running on your Mac. Click the Mission Control icon in the Dock, and your desktop zooms out to display all the open windows in every application, all your

full-screen apps, and Dashboard, the home of mini-apps called widgets. Click anything to zoom in on it. Think of Mission Control as the hub of your system—view everything and go anywhere with just a click.

**Reading List**  
Click the glasses icon to save pages to read later.

**Top Sites**  
Get a quick overview of the sites you visit most often.

**Full-screen view**  
Click the full-screen button to go full screen.

Safari is the home for all the apps on your Mac. Just click the Safari icon in the Dock to open Safari, and surf the web using Multi-Touch gestures. Scroll up or down with two fingers on the trackpad. Swipe with two fingers on the trackpad to go back and forth between pages. Double-tap with two fingers to magnify a page, then double-tap again to return to the original size. Or pinch to zoom in and out.

Mail lets you manage all your email accounts from a single, ad-free inbox, even when you're not connected to the Internet. It works with most email standards—including POP3 and IMAP—and

popular email services such as Gmail, Yahoo! Mail, and AOL Mail. The first time you open Mail, Setup Assistant will help you get started. You can also manage your mail from iCloud.

**One-stop email**  
View all your accounts in Mail for one-click access.

**Conversation view**  
See all the email messages from a conversation thread.

**Search**  
Quickly narrow search results to find exactly what you want.

iTunes organizes and plays your digital music and video on your Mac. The iTunes Store lets you buy new music, movies, TV shows, books, and more. iTunes is also where you'll find the App Store for iPad, iPhone, and iPod touch.

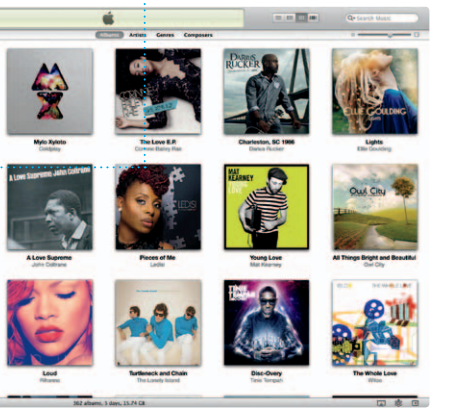

Keep track of your busy schedule with iCal. You can create separate calendars—one for home, another for school, a third for work. See all your calendars in a single window or choose to see only the calendars you want. Create

and send invitations using contact information from your Address Book, then see who has responded. Use iCloud to update calendars on all your devices automatically or share calendars with other iCloud users.

**Multiple calendars**  
Access all your calendars from one place.

**Calendar view**  
Select the view you prefer—day, week, month, or year.

**Add an event**  
Double-click to create a new event.

FaceTime for Mac lets you talk face to face with anyone on an iPad, iPhone, iPod touch, or Mac—from your Mac.\* To set up FaceTime on your Mac, all you need is your Apple ID and email address. To start a video call, click an entry in your Address Book contacts list.

iPhoto is the best way to organize, browse, edit, and share your photos on your Mac. You can organize your photo library by Faces, Places, and Events. To send photos by email or publish them to Facebook, just

iMovie puts all your video clips in one place so you can quickly turn them into great-looking movies or even Hollywood-style movie trailers in just a few clicks. It has all the editing tools, themes, and special effects you need to

turn your photos and videos into something amazing. And iMovie lets you import video from most popular digital video cameras, your iPhone, iPad, or iPod touch, or the FaceTime camera on your Mac.

The Mac App Store is the best way to find and download thousands of apps for your Mac, from games and social networking to productivity apps and more. New apps install in one step to Launchpad. You can install apps on every Mac

authorized for your personal use and even download them again. The Mac App Store lets you know when app updates are available, so you always have the latest versions. Open the Mac App Store by clicking its icon in the Dock.

**Discover new apps**  
Browse thousands of apps and download them straight to Launchpad.

**Always up to date**  
Updates to your purchased apps appear automatically.

**Events**  
Double-click any Event to browse photos.

**Faces**  
iPhoto can even organize your photos based on who's in them.

**Create**  
Create books, cards, and calendars.

**Project browser**  
Simply drop your selection in a project to create a great movie.

**Event browser**  
Your imported videos appear here so you can access all your clips.
