Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<b>ALABAMA, Central</b>				
(AL-Z011) MARION, (AL-Z013) FAYETTE, (AL-Z014) WINSTON, (AL-Z015) WALKER, (AL-Z017) BLOUNT, (AL-Z018) ETOWAH, (AL-Z019) CALHOUN, (AL-Z020) CHEROKEE, (AL-Z021) CLEBURNE, (AL-Z023) TUSCALOOSA, (AL-Z024) JEFFERSON, (AL-Z025) SHELBY, (AL-Z026) ST. CLAIR, (AL-Z027) TALLADEGA, (AL-Z028) CLAY, (AL-Z029) RANDOLPH, (AL-Z032) HALE, (AL-Z033) PERRY, (AL-Z034) BIBB, (AL-Z035) CHILTON, (AL-Z036) COOSA, (AL-Z037) TALLAPOOSA, (AL-Z038) CHAMBERS, (AL-Z040) DALLAS, (AL-Z041) AUTAUGA, (AL-Z042) LOWNDES, (AL-Z043) ELMORE, (AL-Z044) MONTGOMERY, (AL-Z045) MACON, (AL-Z047) LEE				
	05/01/08 00:00 CST		0	Drought
	05/31/08 23:59 CST		0	
Several storm systems across Central Alabama brought limited improvement to the ongoing drought that had begun in the Spring of 2007, but also helped keep the drought from getting worse. By the end of the month, less than one quarter of Central Alabama remained in Extreme Drought (D3), although a large portion of the region remained in a Severe Drought (D2) designation.				
<b>MARION COUNTY --- 1.0 NNW HAMILTON [34.14, -87.99]</b>				
	05/08/08 11:30 CST		2K	Thunderstorm Wind (EG 40 kt)

	05/08/08 12:06 CST		25K	Tornado (EF1, L: 5.68 mi , W: 100 yd)
	05/08/08 12:16 CST		0	Source: NWS Storm Survey
The tornado initially touched down about two and a half miles southwest of the Bazemore Community, one mile north of the intersection of CR-50 and SR-129. The tornado then moved east-northeastward and crossed into Walker County near Barron Creek at State Highway 13. In Fayette County, this tornado destroyed one shed, and damaged another. Other damage in Fayette County was generally light, and confined mostly to snapped off and uprooted trees.

## Storm Data and Unusual Weather Phenomena - May 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<b>ELMORE COUNTY --- 2.2 WSW MARTIN LAKE SOUTH [32.72, -85.99]</b>				
	05/08/08 18:10 CST		3K	Thunderstorm Wind (EG 50 kt)
	05/08/08 18:10 CST		0	Source: Emergency Manager
A tree and several power lines were blown down on Prospect Road, near Lake Martin.				
<b>MONTGOMERY COUNTY --- 1.4 SSW MONTGOMERY [32.36, -86.31], 2.9 S PERRYS MILL [32.26, -86.15]</b>				
	05/08/08 18:35 CST		0.50M	Thunderstorm Wind (EG 87 kt)
	05/08/08 18:45 CST		0	Source: NWS Storm Survey
The area of damage began around the Rosemont Estates area of Montgomery and extended about seven miles southeastward along US Highway 231. The most concentrated area of damage was near the Montgomery Mall, at the intersection of US-80 and US-231. In this area, wind speeds were estimated at near 100 mph. Damage included an automotive shop section within a small strip mall that was destroyed due to a collapsed wall, partially removed roofs from several units at an apartment complex, downed power poles, minor damage to an elementary school building, and several extensively damaged billboards. Elsewhere along the path, winds were estimated to be between 60 and 80 mph, and caused numerous trees to be snapped or uprooted, including at least 4 that fell onto homes. The area of damage was approximately 3 miles wide at its widest point. No injuries were reported.				
<b>A strong storm system and associated cold front swept through Central Alabama, causing numerous severe thunderstorms and isolated tornadoes.</b>				
<b>WINSTON COUNTY --- 2.2 SSE DELMAR [34.14, -87.58]</b>				
	05/10/08 11:00 CST		5K	Thunderstorm Wind (EG 50 kt)

Several trees and power lines were blown down on CR-17, northwest of Natural Bridge.				
<b>MARION COUNTY --- 2.9 SW SHOTTSVILLE [34.24, -88.16], 3.5 WNW THORN HILL [34.20, -87.72]</b>				
	05/10/08 22:18 CST		0.10M	Tornado (EF1, L: 25.46 mi , W: 400 yd)
	05/10/08 22:53 CST		0	Source: NWS Storm Survey
The tornado spun up very quickly about 2.5 miles southwest of the Shottsville Community along County Road 13, between Reedy Branch Road and CR-154. The tornado then tracked just south of due east for almost the entire length of Marion County, with a slight left turn noted near the middle of the path. The tornado crossed CR-11, SR-19, SR-187, US-43, and SR-253, before lifting along CR-34. The tornado remained mostly in a heavily forested area, and thousands of trees were either snapped off or uprooted. Several mobile homes and one carport sustained varying degrees of damage along the path.				
<b>MARION COUNTY --- 1.0 NNW HAMILTON [34.14, -87.99]</b>

	05/10/08 22:58 CST		0	Thunderstorm Wind (EG 52 kt)
	05/10/08 22:58 CST		0	Source: Amateur Radio
A storm spotter estimated 60 mph winds near Bear Creek.				
<b>WINSTON COUNTY --- 0.6 W DOUBLE SPGS [34.15, -87.41], 0.2 SW DOUBLE SPGS [34.15, -87.40]</b>				
	05/10/08 23:15 CST		50K	Thunderstorm Wind (EG 87 kt)
	05/10/08 23:16 CST		0	Source: NWS Storm Survey
An area of straight line winds caused a swath of damage about a half mile long and a quarter of a mile wide, near Double Springs. The damage was centered at the Double Springs Elementary School, where numerous trees were blown down and the roof of the school sustained minor damage. Several nearby homes also sustained roof damage both directly from the wind and from fallen trees. Additional sporadic wind damage occurred elsewhere in Winston County.				
<b>WALKER COUNTY --- 2.1 NE MARIGOLD [33.94, -87.25], 5.7 N SIPSEY [33.90, -87.09]</b>

Water was running over the roads at a depth of up to one foot. A dozen cars were flooded in a parking lot at the intersection of Elm Street and AL-21.

**Heavy rain associated with thunderstorms caused isolated flooding in eastern Alabama.**

## ALABAMA, North

### (AL-Z001) LAUDERDALE, (AL-Z004) LAWRENCE, (AL-Z005) LIMESTONE, (AL-Z006) MADISON, (AL-Z007) MORGAN, (AL-Z008) MARSHALL, (AL-Z009) JACKSON, (AL-Z010) DEKALB, (AL-Z016) CULLMAN

	05/01/08 00:00 CST		0	Drought
	05/31/08 23:59 CST		0	

Rainfall totals for May ranged from 5 to 12 inches west of Interstate 65; and 2 to 4 inches east of Interstate 65. The northwest Alabama totals were more than 150% of normal in most areas (and above normal for the second consecutive month); while the totals east of I-65 were below normal, including Huntsville for the 19th consecutive month.

Aside from the heavy rain at the end of the month, there were scattered events throughout the course of the month, none of which really produced any particularly heavy rainfall, with the exception of the 2nd, when heavy rains over three inches fell in the extreme northwest corner of Alabama. Rainfall totals quickly lessened further east, however.

Drought conditions improved areawide, about 1 category on average. Northwest Alabama, by the end of the month, was no longer considered to be in drought. Conditions improved to only D2 /Severe Drought/ in the east, improving from D3 for the first time since last spring.

### LAUDERDALE COUNTY --- 2.1 S RHODESVILLE [34.84, -87.87], 1.6 ENE CENTRAL HGTS [34.90, -87.75]

	05/08/08 10:57 CST		0.30M	Tornado (EF1, L: 7.99 mi , W: 200 yd)
	05/08/08 11:04 CST	2	0	Source: NWS Storm Survey

A tornado with peak winds of 90 mph began a path near the intersection of County Roads 14 and 16, about 2 miles northwest of Oakland and tracked into the Central Heights community. The tornado produced moderate damage to five homes and uprooted several trees in its path. One of the homes was destroyed along Waterloo Road near Feddler's One Stop Market in Oakland where two men were slightly injured by flying glass. A mobile home was also overturned. The tornado widened to 200 yards before narrowing to around 20 yards toward the end of its path.

### COLBERT COUNTY --- 2.2 WNW MIDWAY [34.74, -87.47], 0.0 SW FOSTERS MILL [34.77, -87.42]

## Storm Data and Unusual Weather Phenomena - May 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	05/08/08 11:39 CST		0.30M	Tornado (EF2, L: 3.49 mi , W: 250 yd)
	05/08/08 11:44 CST		0	Source: NWS Storm Survey

A surveillance camera from an equipment company northeast of Leighton captured a tornado on video picking up at least 2 cars and throwing them nearly 40 feet. A home was destroyed and another heavily damaged along River Road and Second Street. Large trees were snapped and uprooted near Fosters Mill at the intersection County Road 40. An 18 wheeler was reported to be overturned in this area as well.

### LAWRENCE COUNTY --- 2.8 N LEMON HILL [34.77, -87.42], 0.4 NE WHEELER DAM VILLAGE [34.80, -87.37]

05/08/08 11:45 CST	0.25M	Tornado (EF2, L: 3.80 mi , W: 250 yd)
05/08/08 11:50 CST	0	Source: NWS Storm Survey

A tornado continued its track from Fosters Mill in Colbert County into the far northern tip of Lawrence County. The tornado struck the Doublehead Resort and Lodge producing significant structural damage. A 2-story house was completely lifted off its foundation and moved nearly 20 feet. The entire west-facing side of this house was ripped off along with significant roof damage.

### LAUDERDALE COUNTY --- 2.0 SSW THORTONTOWN [34.80, -87.37], 1.5 NNW ROGERSVILLE [34.85, -87.29]

05/08/08 11:51 CST	5K	Tornado (EF1, L: 5.33 mi , W: 250 yd)
05/08/08 12:02 CST	0	Source: NWS Storm Survey

A tornado continued its track from the far northern tip of Lawrence County into Joe Wheeler State Park to 2 miles north of Rogersville. The tornado produced sporadic damage to a garage and large trees in this path.

### CULLMAN COUNTY --- 5.2 SW WHEAT [33.97, -87.14], 4.6 SW WHEAT [33.98, -87.13]

05/08/08 13:06 CST	20K	Tornado (EF1, L: 0.70 mi , W: 100 yd)
05/08/08 13:07 CST	0	Source: NWS Storm Survey

A tornado with winds up to 100 mph continued a track out of Walker County on Smith Lake. Several trees were snapped and uprooted. A roof was partially torn off of a chicken house. The tornado lifted after nearly a 3/4 mile path, but then re-developed just a few miles further northeast near Sulpher Springs.

### MORGAN COUNTY --- 0.2 SW OAK RIDGE [34.48, -87.00], 0.7 NE OAK RIDGE [34.49, -86.99]

05/08/08 13:15 CST	10K	Tornado (EF0, L: 0.86 mi , W: 50 yd)
05/08/08 13:17 CST	0	Source: NWS Storm Survey

A tornado with peak winds speeds of 95 mph touched down near Goose Pond Road northwest of Hartselle, tracking northeast near Norris Mill Road to around Macabee Drive. The tornado uprooted multiple medium to large trees, including one of 4-foot diameter. Several smaller trees and branches were snapped.

### CULLMAN COUNTY --- 1.7 WNW GOOD HOPE [34.11, -86.90]

05/08/08 13:18 CST	5K	Thunderstorm Wind (EG 56 kt)
05/08/08 13:35 CST	0	Source: Newspaper

Severe thunderstorm winds tore sections of a tin roof off of a farm building and downed several trees. Damage was also reported at the Hutson Farm between Good Hope and Grandview near Days Gap Road and at the Asa Blalock farm.

### CULLMAN COUNTY --- 3.2 WSW TRIMBLE [34.08, -87.00], 0.2 SE TRIMBLE [34.10, -86.95]

05/08/08 13:20 CST	20K	Tornado (EF1, L: 3.27 mi , W: 100 yd)
05/08/08 13:32 CST	0	Source: NWS Storm Survey

A tornado touched down again just east of Sulpher Springs tracking into the Trimble community before lifting. The tornado uprooted or snapped several large trees. Some trees damaged apartments and campers in this area. Another tornado touched down a few more miles northeast on the east side of Cullman.

### LIMESTONE COUNTY --- 0.6 S NEW HOPE [34.57, -86.82], 1.2 SSE SWANCOTT [34.59, -86.79]

05/08/08 13:35 CST	10K	Tornado (EF0, L: 2.03 mi , W: 100 yd)
05/08/08 13:36 CST	0	Source: NWS Storm Survey

A tornado produced sporadic EF-0 damage with winds up to 65 mph along New Hope Road in extreme southeastern Limestone County just north of the Tennessee River, where convergent wind patterns were noted in a grass and wheat field. A larger area of grass and wheat was flattened along County Line Road south of Swancott Road. Minor tree and roof damage occurred at a residence in this area.

### MADISON COUNTY --- 2.3 W TRIANA [34.59, -86.79], 0.7 NNW TRIANA [34.59, -86.75]

## Storm Data and Unusual Weather Phenomena - May 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	05/08/08 13:37 CST		10K	Tornado (EF1, L: 1.98 mi , W: 250 yd)
	05/08/08 13:43 CST		0	Source: NWS Storm Survey

A tornado continued its track into Madison County to a point about 3 miles west northwest of Triana. The tornado intensified to an EF-1 with wind speeds up to 100 mph, uprooting large pine trees and snapping small to medium sized pine trees on the northeast side of Blackwell Swamp.

### CULLMAN COUNTY --- 0.2 NNW ST BERNARD [34.18, -86.80], 1.9 NNE SIMCOE [34.24, -86.71]

	05/08/08 13:40 CST		50K	Tornado (EF1, L: 6.58 mi , W: 100 yd)
	05/08/08 13:48 CST		0	Source: NWS Storm Survey

A tornado with peak wind speeds around 100 mph tracked from the east side of Cullman through the Simcoe community. Several large old oak trees were uprooted or snapped on the east side of Cullman. The tornado heavily damaged a pair of chicken houses in rural Cullman County. One chicken house completely collapsed with the central portion of the structure twisted and gnarled, and its metal roofing torn and twisted in the fields downstream. Pockets of straight-line wind damage were noted south of the tornado tracks, including in the southern portions of the city of Cullman.

### CULLMAN COUNTY --- 0.7 S STEPPVILLE [34.06, -86.75]

	05/08/08 13:40 CST		3K	Thunderstorm Wind (EG 61 kt)
	05/08/08 13:42 CST		0	Source: Trained Spotter

Thunderstorm winds knocked large trees of up to 3 feet in diameter and 60 feet tall. Shingles were also torn off houses by the severe winds.

**A quasi-linear convective system (QLCS) produced no less than five tornadoes and damaging thunderstorm winds across northern Alabama during the late morning through mid afternoon hours.**

### LAUDERDALE COUNTY --- 2.9 WNW WATERLOO [34.93, -88.12]

	05/10/08 21:58 CST		5K	Thunderstorm Wind (EG 52 kt)
	05/10/08 22:00 CST		0	Source: Emergency Manager

Thunderstorm winds knocked down trees and powerlines in Macedonia resulting in power outages.

### LAUDERDALE COUNTY --- 2.8 W GRAVELLY SPGS [34.88, -87.95], 1.4 WNW GRAVELLY SPGS [34.89, -87.92]

	05/10/08 22:00 CST		0.10M	Tornado (EF1, L: 1.60 mi , W: 250 yd)
	05/10/08 22:05 CST		0	Source: NWS Storm Survey

A tornado with peak winds of around 100 mph touched down near a cove along the Tennessee River and moved east northeast, nearly paralleling county road 14 between the Wright and Rhodesville communities. Extensive tree damage was observed with multiple large trees uprooted and many medium size tree trunks snapped. The heaviest damage occurred to a farm along county road 14, where an all metal barn was completely destroyed, an awning adjacent to another outbuilding was ripped off, and concrete posts were ripped from the ground. The metal roofing was catapulted approximately 1/2 of a mile.

### COLBERT COUNTY --- 2.5 WNW VALDOSTA [34.73, -87.76], 0.6 SW TUSCUMBIA [34.72, -87.71]

	05/10/08 22:22 CST		10K	Thunderstorm Wind (EG 52 kt)
	05/10/08 22:24 CST		0	Source: Emergency Manager

Thunderstorm winds knocked down trees and power lines throughout Tuscumbia and vicinity including along west 3rd Street, Highland Place, Frankfort, Flatwood, Cove, Keller Quarry and Walker Camp Roads.

### COLBERT COUNTY --- SHEFFIELD [34.77, -87.70]

	05/10/08 22:23 CST		3K	Thunderstorm Wind (EG 52 kt)
	05/10/08 22:25 CST		0	Source: Emergency Manager

Thunderstorm winds knocked down two trees on a house.

### FRANKLIN COUNTY --- 0.5 NNE GLASGOW CORNER [34.44, -87.87]

	05/10/08 22:36 CST		1K	Thunderstorm Wind (EG 52 kt)
	05/10/08 22:39 CST		0	Source: Amateur Radio

Thunderstorm winds knocked a tree down on Highway 187 and County Road 52.

### FRANKLIN COUNTY --- 2.0 S ISBELL [34.42, -87.75]

	05/10/08 22:41 CST		1K	Thunderstorm Wind (EG 52 kt)
	05/10/08 22:44 CST		0	Source: Amateur Radio

Thunderstorm winds knocked down a tree 6 miles south of Russellville on U.S. Highway 43 in the Spruce Pine area.

High winds from thunderstorms downed trees and powerlines across portions of southwest Alabama. Thunderstorms also caused damage to a Flea Market in Summerdale and destroyed a barn in Uriah.

**CONECUH COUNTY --- 1.0 WNW PAUL [31.33, -86.77], 5.4 ENE MELROSE [31.39, -86.67]**

05/15/08 11:17 CST		25K	Tornado (EF0, L: 7.17 mi , W: 100 yd)
05/15/08 11:27 CST		0	Source: NWS Storm Survey

A weak tornado first touched down just west of Paul. The tornado moved northeast and passed just east of Cohasset. The tornado moved across U. S. Highway 84 at the Conecuh and Covington county line. This is a rural area and the only damage the tornado caused was to trees. Some of the trees landed across the rural roads and had to be moved before anyone could drive on the roads.

**COVINGTON COUNTY --- 3.1 W RED LEVEL [31.39, -86.67], 2.9 ENE SOUTH [31.47, -86.58]**

05/15/08 11:27 CST		0.15M	Tornado (EF0, L: 7.79 mi , W: 100 yd)
05/15/08 11:38 CST		0	Source: NWS Storm Survey

A weak tornado moved out of Conecuh county and into Covington county along U. S. Highway 84. The tornado moved northeast and tracked just west of Red Level where a tree fell on a house and caused major roof damage. The tornado then passed near the city of South where three homes and one mobile home were damaged. An old volunteer fire department building was also damaged. The tornado then dissipated. In addition to the structures that were damaged, many trees were blown down along the path of the tornado.

A weak tornado developed in the east part of Conecuh county and moved into the west part of Covington county. The tornado caused mostly tree damage with some structures damaged near the end of the track.

Heavy rains fell across the south parts of Mobile and Baldwin counties and caused temporary flooding of streets and secondary roads. Some of the roads had to be closed for more than an hour due to the heavy rains. The roads that were flooded were generally south of I-10. The heavy rains caused soil to be washed away at a construction site in Fairhope. Rainfall totals of three to four inches fell across the area.

Direct Fatalities: M12IW, M54IW

Two people drowned along the Alabama beaches. The first was swimming in rough water near Gulf State Park in Foley. Red flags were flying warning of dangerous surf. He was pulled from the water and died. A young boy drowned in swift current near the public beach on Dauphin Island. He was pulled away from the shore by the current and was not found until the following day.
