Heavy rainfall produced flooding at numerous locations across Lamar County. Close to 40 roads were closed due to high water, including 10 that were completely washed out. Just east of Vernon, 3 people were rescued without injury after their car was caught in fast moving flood waters.				
<b>PICKENS COUNTY --- 1.9 WNW PICKENSVILLE [33.24, -88.30], 6.1 N PICKENSVILLE [33.32, -88.28], 1.1 SSW OWENS [33.31, -88.06], 3.3 ESE CARROLLTON [33.25, -88.05], 2.7 SSW PICKENSVILLE [33.19, -88.29]</b>				

## Storm Data and Unusual Weather Phenomena - January 2009

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	01/06/09 14:00 CST	2	50K	Flash Flood (due to Heavy Rain)
	01/06/09 21:00 CST	1	0	Source: Emergency Manager

Heavy rainfall produced flooding at several locations across Pickens County. At least 5 roads were closed due to high water, and 2 bridges were washed out. Flash flooding caused a bridge to wash out on Antioch Church Road, over Buncomb Creek. A mother and child subsequently drove off the washed out roadway, and drowned in the flood waters. A second vehicle following behind also drove into the creek at the same place, but the occupants were successfully rescued.

Direct Fatalities: F27VE, M1VE

**WALKER COUNTY --- 1.2 ESE MANCHESTER [33.89, -87.28], 1.1 N SIPSEY [33.84, -87.08], 1.0 E ALDRIGE [33.70, -87.23], 2.0 S CARONA [33.67, -87.47], 1.4 NNE KANSAS [33.92, -87.54], 4.4 NW MANCHESTER [33.95, -87.35]**

01/06/09 14:00 CST	0.20M	Flash Flood (due to Heavy Rain)

## Storm Data and Unusual Weather Phenomena - January 2009

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

Several trees were blown down near the Perote Community.

A slow moving frontal system caused several large areas of showers and thunderstorms to move across Central Alabama, during the period from January 5 to January 7. Some of the thunderstorms became severe, producing sporadic wind damage. Storm total rainfall from the storms ranged from 1 to 3 inches south of Interstate 20, to 3 to 7 inches north of the Interstate. The highest rainfall totals, of over 6 inches, occurred in a broad swath from Walker to Etowah Counties. Numerous locations, again mainly north of Interstate 20, saw significant flash flooding due to the heavy rainfall, which later turned into river flooding that lasted for several more days.

### ALABAMA, North

#### CULLMAN COUNTY --- 0.9 NW WEST PT [34.24, -86.96]

01/05/09 18:00 CST	0	Heavy Rain
01/06/09 18:00 CST	0	Source: COOP Observer

A COOP observer in the West Point area recorded 5.30 inches of rainfall since 6 PM on the 5th.

#### CULLMAN COUNTY --- 0.8 W COUNTY LINE [34.30, -86.71], 1.9 E JEPPIA [34.30, -86.52], 0.9 ENE HOLLY POND [34.17, -86.60], 1.4 S TRIMBLE [34.08, -86.95], 2.4 ESE CRANE HILL [34.09, -87.01], 0.7 N MT VIEW [34.26, -86.78]

01/06/09 08:16 CST	0.30M	Flood (due to Heavy Rain)
01/08/09 07:00 CST	0	Source: Newspaper

Heavy rainfall caused area creeks and streams to flood numerous roads. Some bridges and road were damaged or destroyed by flood waters including: A wooden bridge on County Road 1651, a bridge on County Road 1427, and County Road 310. Particularly hard hit areas were Baileyton, Holly Pond, and Fairview.

#### MARSHALL COUNTY --- 2.4 NNE ALLEN XRDS [34.46, -86.53], 1.7 W SWEARENGIN [34.57, -86.23], 3.5 S MC VILLE [34.23, -86.12], 1.9 WNW BOAZ [34.21, -86.20], 2.7 SE DOUGLAS [34.14, -86.30], 1.9 ESE ARAB [34.31, -86.47], 2.8 S RUTH [34.33, -86.57]

01/06/09 08:16 CST	0.45M	Flood (due to Heavy Rain)
01/08/09 07:00 CST	0	Source: Emergency Manager

Heavy rainfall caused area creeks and streams to flood, impacting numerous roads across Marshall county. Roads blocked by flood waters included but were not limited to: Tibbit Circle near Albertville, Sundown Road in Arab, Smith Circle near Arab, Oak Road north of Horton, Horton Road near Albertville, U.S. 231 near Mount Olive Church, Pleasant Valley Road in Union Grove, the Ruth community, and Winkles Road in the Grant area.

#### LAUDERDALE COUNTY --- 1.0 E WHITEHEAD [34.88, -87.30], 2.0 SSE ANDERSON [34.89, -87.26], 1.8 SE GRASSY [34.95, -87.28], 2.9 SSW GRASSY [34.93, -87.33]

01/06/09 09:14 CST	0	Flood (due to Heavy Rain)
01/07/09 11:00 CST	0	Source: Emergency Manager

Heavy rainfall caused creeks and streams in eastern portions of Lauderdale county to flood. Some roads closed by the flooding included: Highway 534, County Road 96, and Highway 156.

#### MORGAN COUNTY --- 2.7 ENE HUNTSVILLE LACEYS SP [34.55, -86.56], 2.3 ESE CENTER GROVE [34.37, -86.59], 2.4 N GUM POND [34.36, -86.67], 1.1 SSE FALKVILLE [34.36, -86.89], 3.3 SSE FLINT CITY [34.48, -86.94]

01/06/09 09:18 CST	0.10M	Flood (due to Heavy Rain)
01/07/09 15:00 CST	0	Source: Newspaper

Heavy rainfall caused area creeks and streams to flood across much of Morgan county. Some roads that were closed included: portions of Six Mile Road, several roads in Apple Grove, River Loop Road in Lacey Springs, the intersection of Douglas road and Highway 55 near Falkville, and Ruth Road in the Ruth community.

#### MADISON COUNTY --- 0.7 SW NEW HOPE [34.52, -86.41], 1.8 SE OAK GROVE [34.50, -86.41], 1.5 SW OAK GROVE [34.50, -86.45], 1.0 W OAK GROVE [34.52, -86.45]

01/06/09 14:55 CST	0	Flood (due to Heavy Rain)
01/07/09 12:00 CST	0	Source: Newspaper

Heavy rainfall across portions of southeastern Madison County produced flooding. Emergency management officials no less than 6 inches of flood water across: Mayo Road south of Johnson Road, Sam Maples Road at the intersection of Old Highway 431, Oak Grove Road, and Scott Branch Road. These roads were deemed impassable and were closed.

#### WASHINGTON COUNTY --- 0.1 WSW MC INTOSH [31.27, -88.03], 1.5 ENE MC INTOSH [31.28, -88.01]

	01/10/09 17:05 CST		2.50M	Tornado (EF1, L: 1.60 mi , W: 200 yd)
	01/10/09 17:08 CST		0	Source: NWS Storm Survey

An EF-1 tonado developed near the intersection of Topton Road and U.S. Highway 43. The tornado traveled northeast for about 1.6 miles and ended near the Ciba industrial plant. Numerous pine trees were snapped at their bases along the entire path and extensive roof damage was observed to single family residence homes. The Ciba plant experienced damage to several of its building's roofs. The high winds also blew through the glass door entry-ways of several buildings. High winds also blew out the rear windshields of an entire row of pickup trucks. One truck in the parking lot was flipped upside down and extensive tree damage occurred near the entrance to the plant.

**An EF-1 tornado with winds estimated at 104 mph cut a 1.6 mile path across southeastern Washington County. The tornado went through the Ciba plant in McIntosh causing damage to the plants roofs and vehicles. No injuries were reported with this tornado.**
