Storm Data and Unusual Weather Phenomena - June 2010

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	06/02/10 20:00 CST		5K	Flash Flood (due to Heavy Rain)
	06/02/10 21:15 CST		0	Source: Emergency Manager

Flash flooding led to water flowing into a residence on Oakhalla Road, near exit 289 on I-65. Water was also reported over Ricetown Road, in the same area.

JEFFERSON COUNTY --- 1.8 ENE DIXIANA [33.74, -86.65], 2.0 ENE DIXIANA [33.74, -86.65], 1.8 E DIXIANA [33.73, -86.65], 1.4 E DIXIANA [33.73, -86.66]	06/02/10 20:30 CST		1K	Flash Flood (due to Heavy Rain)
	06/02/10 21:15 CST		0	Source: Broadcast Media

Alabama Route 75, near Clay-Palmerdale Road, had to be temporarily closed due to flash flooding.

High instability resulted in afternoon thunderstorms during the evening hours. Some storms toppled trees and resulted in some structure damage. Weak steering flow resulted in slow moving storms which produced some flooding.

RANDOLPH COUNTY --- 1.9 WNW ROANOKE [33.16, -85.38], 1.6 E ROANOKE [33.15, -85.32], 1.5 E ROANOKE [33.15, -85.32], 1.3 NW ROANOKE MUNI ARPT [33.14, -85.39]	06/04/10 11:30 CST		0.12M	Flash Flood (due to Heavy Rain)
	06/04/10 15:00 CST		0	Source: Emergency Manager

Significant flooding was reported around the city of Roanoke. Several streets became impassable with a foot or more of water flowing over them, and several homes in the area got up to 3 feet of water in them. The hardest hit area was along AL-22, near Midway Full Gospel Church. At least one unoccupied vehicle was carried about 400 feet down a flood swollen creek, and an additional vehicle in the same area was submerged for a time. One person had to be rescued from her trailer after flood waters surrounded it.

JEFFERSON COUNTY --- 4.0 ENE DIXIANA [33.76, -86.62]	06/04/10 11:42 CST		3K	Lightning
	06/04/10 11:42 CST		0	Source: Emergency Manager

A home was struck by lightning in the Woodhaven subdivision, just East of AL-75, causing unspecified damage.

JEFFERSON COUNTY --- 1.6 NNW AYRES [33.70, -86.69], 3.3 N LEEDS [33.60, -86.54], 2.5 NE LOVICK [33.58, -86.59], 1.3 ENE FULTONDALE [33.63, -86.78]	06/04/10 12:00 CST		50K	Flash Flood (due to Heavy Rain)
	06/04/10 15:00 CST	3	0	Source: Emergency Manager

Several locations northeast of the city of Birmingham experienced significant flash flooding. Several roads in and around the cities of Pinson, Center Point, and Trussville, became temporarily impassable due to flood waters. Three people suffered bumps and bruises after they were swept away on the Cahaba River and had to be rescued by a swift water team.

CHAMBERS COUNTY --- 1.5 NNW FAIRVIEW [32.87, -85.21]	06/04/10 13:48 CST		1K	Thunderstorm Wind (EG 40 kt)
	06/04/10 13:48 CST		0	Source: Emergency Manager

A few tree limbs were blown down, resulting in power outages in Lanett.

Slow moving thunderstorms in a very moist environment produced flooding in several locations across Central Alabama.

MACON COUNTY --- 0.7 E GREENWOOD [32.42, -85.69]	06/05/10 12:20 CST		50K	Thunderstorm Wind (EG 55 kt)
	06/05/10 12:20 CST		0	Source: Law Enforcement

Several trees were blown down in and around Tuskegee, including along Elm Street and Main Street. One tree landed on a downtown business resulting in severe damage.

TALLADEGA COUNTY --- 1.4 ESE RAHATCHIE [33.21, -86.31]	06/05/10 17:42 CST		0.50K	Thunderstorm Wind (EG 43 kt)
	06/05/10 17:42 CST		0	Source: Storm Chaser

A tree was blown down onto US-280, near Merkel Mountain between Sylacauga and Childersburg.

Afternoon thunderstorms driven by an unstable air mass resulted in isolated wind damage.

Storm Data and Unusual Weather Phenomena - June 2010

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
LAMAR COUNTY --- 5.1 NNW MOLLOY [33.80, -88.23]

Trees and power lines were blown down at several locations near the Delta community, including Good Hope Delta Road, Lees Bridge Road, Center Hill Road, and the Lake Gerald area. Several barns in the same area were also damaged.				
TALLADEGA COUNTY --- 0.9 ENE TALLADEGA [33.43, -86.08], 0.2 SSE SHOCCO [33.42, -86.13]				
	06/21/10 19:57 CST		0.25M	Thunderstorm Wind (EG 70 kt)
	06/21/10 20:00 CST		0	Source: NWS Storm Survey
An apparent downburst caused an swath of intense damage across the southern portion of the city of Talladega. Around 100 trees were blown down, with some of them falling onto homes causing varying degrees of damage. In addition, hundreds of limbs were broken off, many of them also large enough to cause damage to homes as they fell. Structural damage not the result of falling trees or limbs was confined to outbuildings containing lumber at a hardware store. The total damage swath was more than 2.5 miles long, and up to 100 yards wide, with peak wind gusts estimated around 80 mph.				
Afternoon heating lead to isolated strong to severe thunderstorms. Some storms produced damaging winds, and one produced a downburst that caused an enhanced area of damage.

Lightning struck a home on Broadway Street in Sheffield.

LIMESTONE COUNTY --- 2.1 SSW RIPLEY [34.72, -87.13]

	06/04/10 16:45 CST		0	Lightning
	06/04/10 16:50 CST	1	0	Source: Amateur Radio

A man was struck by lightning on Paradise Shores Road and sustained non-life threatening injuries.

Daytime heating and a weak boundary extending from eastern Virginia southwest into northern Alabama sparked scattered strong to severe "pulse" thunderstorms during the afternoon and evening of June 4. A few storms in Marshall and Limestone counties knocked down several trees in the Horton and Douglas communities.

(AL-Z006) MADISON

	06/08/10 11:00 CST		0	Heat
	06/17/10 17:00 CST	9	0	

A heat episode produced high temperatures in the lower to mid 90s for successive days from the 8th through the 17th. Heat index values climbed to near 105 degrees in some areas on the 12th, 13th and 14th. Minimum temperatures dropped only into the mid 70s on the 11th through the 17th at Huntsville, AL. In fact, record high minimum temperatures were set on the 12th through 14th. Although heat advisory criteria was not met, nine people were treated for heat related illnesses by the Huntsville HEMSI unit between the 8th and the 17th, due to the hot weather.

(AL-Z010) DEKALB

	06/09/10 11:49 CST		2K	Strong Wind (MAX 43 kt)
	06/09/10 11:49 CST		0	

A cluster of strong to severe thunderstorms developed during the mid morning hours across northwest Alabama and tracked eastward across north central and northeast Alabama. Main storm damage occurred in Lawrence and Dekalb counties where strong winds produced sporadic downed trees and power lines. A mesonet site west of Trinity, Alabama recorded a wind gust to 48 mph as the line of thunderstorms moved east. A lightning strike injured a male that was under a tree in DeKalb County. The storms moved east into northern Georgia just before Noon.

COLBERT COUNTY --- 0.4 WSW VALDOSTA [34.72, -87.73], 1.0 S MUSCLE SHOALS [34.74, -87.67]

	06/09/10 16:00 CST		30K	Thunderstorm Wind (EG 52 kt)
