

Storm Data and Unusual Weather Phenomena - April 2012

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
ALABAMA, Central				
(AL-Z028) CLAY, (AL-Z029) RANDOLPH, (AL-Z036) COOSA, (AL-Z037) TALLAPOOSA, (AL-Z038) CHAMBERS, (AL-Z042) LOWNDES, (AL-Z043) ELMORE, (AL-Z044) MONTGOMERY, (AL-Z045) MACON, (AL-Z046) BULLOCK, (AL-Z047) LEE, (AL-Z048) RUSSELL, (AL-Z049) PIKE, (AL-Z050) BARBOUR				
	04/01/12 00:00 CST		0	Drought
	04/30/12 23:59 CST		0	
<p>Although there were periods of rainfall across central Alabama, generally less than 3 inches of rain fell for most areas during the entire month of April. This brought very little relief to the drought stricken areas in the southeast, and drought conditions persisted for the month across Elmore, Lee, Bullock, Macon, Tallapoosa, Montgomery, Russell, Pike, Barbour, Randolph, Lowndes, Chambers, Coosa, and Clay Counties.</p>

<hr/>				
Several trees were blown down in and around Talladega, including along Chaffey Street.				
<hr/>				
<p>An upper level closed low moved across the Mississippi Valley region on Thursday, April 5th. Ahead of this feature, storms along an outflow boundary moved across Mississippi and into west central Alabama by mid morning, producing large hail and wind damage across southwest portions of central Alabama. As the upper low crossed the area during peak daytime heating, a second round of severe thunderstorms developed. These storms brought large hail and wind damage to a significant portion of the area.</p>				
<hr/>				
TALLADEGA COUNTY --- 0.6 W MIGNON [33.18, -86.26]				

Storm Data and Unusual Weather Phenomena - April 2012

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	04/17/12 13:52 CST		0	Hail (2.00 in)
	04/17/12 14:00 CST		0	Source: Broadcast Media

TALLADEGA COUNTY --- IRONATON [33.42, -85.98]

	04/17/12 15:03 CST		0	Hail (1.00 in)
	04/17/12 15:03 CST		0	Source: Trained Spotter

On April 17, a cold front moved eastward into central Alabama and stalled across the area during the afternoon. As surface temperatures rose through the day, the airmass across the area became moderately unstable. Thunderstorms developed to the west of the area and moved along the front, producing isolated large hail in Talladega County.

ALABAMA, North

MADISON COUNTY --- MADISON [34.70, -86.77]

	04/05/12 15:05 CST		0	Hail (0.75 in)

Storm Data and Unusual Weather Phenomena - April 2012

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
Penny sized hail was reported.				
LAWRENCE COUNTY --- MOULTON [34.48, -87.28], 0.8 NNE MOULTON [34.49, -87.27], 1.0 NE MOULTON [34.49, -87.27], 0.3 ENE MOULTON [34.48, -87.28]				
	04/05/12 17:31 CST	0		Flash Flood (due to Heavy Rain)
	04/05/12 19:00 CST	0		Source: Trained Spotter
Flash flooding occurred with several inches of water reported to be approaching a business on highway 24 just north of Moulton. Moulton tire company in Moulton was surrounded by several inches of water and the parking lot there was flooded. Several roads in this surrounding area had between 8 and 15 inches of water covering them. A few vehicles stalled in the high water and were abandoned. A vehicle was also swept by flash flooding near the McDonalds on highway 157 in Moulton. The occupants were pulled out of the car to safety.

DEKALB COUNTY --- 1.0 S CROSSVILLE [34.27, -86.00]

	04/05/12 19:24 CST		0	Hail (0.75 in)
	04/05/12 19:25 CST		0	Source: Emergency Manager

Penny sized hail was reported on Highway 227.

A cold upper low tracked east southeast across the region during the afternoon and evening hours. The cold air aloft combined with afternoon heating produced a favorable environment for numerous thunderstorms to develop along an associated cold front. Large hail was reported in a few locations, covering the ground and impacting travel in a few locations. Hail brought traffic to a standstill for a time on Interstate 59 near Valley Head. Rainfall of 3 to 4 inches in a short period of time led to flash flooding in portions of Lawrence, Limestone and Morgan Counties.

HENRY COUNTY --- 1.3 NNW GRABALL [31.60, -85.28]

04/05/12 14:51 CST		1K	Thunderstorm Wind (EG 50 kt)
04/05/12 14:51 CST		0	Source: Law Enforcement

A tree was blown down in the southbound lane of US-431 just north of Abbeville. Monetary damage was estimated.

An upper level low moved into the region on April 5th at the same time several clusters of thunderstorms moved across the northern Gulf of Mexico. These clusters of storms likely provided just enough subsidence to prevent a more widespread outbreak of severe thunderstorms from happening across inland areas. However, several trees were still blown down across portions of southeast Alabama.
