Several trees uprooted in the city of Gadsden.				
BLOUNT COUNTY --- 5.1 SSE ALLGOOD [33.85, -86.47]				
	06/05/14 16:48 CST	0		Thunderstorm Wind (EG 50 kt)
	06/05/14 16:48 CST	0		Source: 911 Call Center
Several trees uprooted in the city of Oneonta.				
An upper ridge centered over the southern Plains States produced a northwest flow pattern across Alabama. Precipitable water values were near 1.75 inches and some dry air was present aloft, which could enhance any downdrafts. A MCS moved across north Alabama in the afternoon producing sporadic wind damage and large hail.				
BLOUNT COUNTY --- 2.3 NW BLOUNTSVILLE [34.10, -86.61]				
	06/06/14 13:45 CST	0		Thunderstorm Wind (EG 50 kt)
	06/06/14 13:45 CST	0		Source: Emergency Manager
Several trees uprooted on Highway 51.				
BLOUNT COUNTY --- 0.7 S BLOUNT SPGS [33.92, -86.80]				
	06/06/14 13:57 CST	0		Thunderstorm Wind (EG 50 kt)

<hr/>				
BULLOCK COUNTY --- 2.1 W PEROTE [31.95, -85.74]				
	06/06/14 18:05 CST		0	Thunderstorm Wind (EG 50 kt)
	06/06/14 18:05 CST		0	Source: 911 Call Center
Several trees uprooted along County Road 8.				
<p>A high pressure ridge over the southern Plains States produced northwest flow across Alabama. The air mass across central Alabama was moderately unstable with surface based CAPE values expected to be in the 2500-3500 J/Kg and 0-6km wind shear values of 35 to 40 knots. Upper level impulses moving through the northwest flow triggered numerous thunderstorms in the afternoon and early evening, with some of the storms producing wind damage.</p>				
<hr/>				
LAMAR COUNTY --- 0.7 S MILLPORT [33.56, -88.08]				
	06/07/14 18:20 CST		0	Thunderstorm Wind (EG 50 kt)
	06/07/14 18:20 CST		0	Source: Emergency Manager
Several trees uprooted along Highway 96 near the town of Millport.

Numerous trees uprooted across southern portion of Randolph County.				
<hr/>				
TALLAPOOSA COUNTY --- 2.9 NNW BARNESVILLE [32.74, -85.82]	06/07/14 23:30 CST	0		Thunderstorm Wind (EG 50 kt)
	06/07/14 23:30 CST	0		Source: Public
Several trees uprooted and structural damage to a large boathouse at Still Waters Resort.				
<p>An upper flow pattern favorable for MCS development was present across the Plains States and the Lower Mississippi River Valley Region. Low level boundaries left over from decaying MCS's provided the focus for evening thunderstorm development across Central Alabama. Drier in aloft would provide the potential for any thunderstorms to produce damaging winds with CAPE values expected to be in the 2500-3500 J/kg range.</p>				
<hr/>				
PICKENS COUNTY --- 0.9 NW ALICEVILLE [33.14, -88.16]	06/08/14 12:54 CST	0		Hail (1.75 in)

<p>This survey was performed by a student at the University of Alabama in Huntsville . A very brief tornado touched down just west of Griffith Road near Tanner. Damage occurred to three residences. At one residence, a 18 by 20 foot shed was destroyed and a few shingles were peeled off the east-facing side of the roof. The two houses across the street sustained minor roof damage (at the time of the survey, one house had already been repaired). A few snapped limbs and branches were noted from trees behind these homes . The tornado crossed Stewart Road where another house sustained minor roof damage and a porch pillar was pushed over. The tornado briefly reached maximum intensity along Winfred Drive where three residences were affected. Two of the residences sustained minor roof damage in the form of shingles and the soffit and fascia being pulled off . The third residence featured significant removal of shingles as well as a destruction of a large well-constructed 30 by 45 foot shed. The tornado dissipated after crossing Winfred Drive, with no additional damage noted along U.S. Highway 31.</p>

06/09/14 19:30 CST	0	Tornado (EF1, L: 2.80 mi, W: 150 yd)
06/09/14 19:32 CST	0	Source: NWS Storm Survey

A tornado touched down Monday evening near the intersection of Clement Road and LaGrange road in the LaGrange community in southeast Colbert County. Here, several hardwood trees were either snapped or uprooted. A large outbuilding was completely destroyed and another smaller one sustained significant damage. Several hardwood trees were sheared off very near the base along LaGrange Road. Damage here was consistent with winds of at least 100 mph.

The tornado moved east-northeast crossing Logan Lane and Waldrep Loop. Minor damage, mainly lost shingles, was noted to several homes with one home losing an awning. Numerous trees had large limbs snapped or twisted in this area.

The tornado then produced sporadic tree damage in the forested area between Waldrep Loop and Country Line Road (CR 48). As the tornado crossed CR 48, substantial tree damage was noted at a homestead. Large hardwood trees, some greater than 2 feet in diameter, were snapped or uprooted. A utility pole was also snapped near the ground. The damage was consistent with at least 105 mph here.

LAWRENCE COUNTY --- 2.5 W WOLF SPGS [34.59, -87.51], 0.8 NNE WOLF SPGS [34.61, -87.46]

06/09/14 19:32 CST	0	Tornado (EF0, L: 3.06 mi, W: 50 yd)

	06/10/14 12:56 CST		0	Source: NWS Storm Survey
A tornado touched down in a neighborhood just north of the Jackson County Park , near Byron Road. Several trees and branches were snapped as it skipped through the neighborhood. It moved northeast to the K and K trailer Park just south of Highway 35, where it damaged a metal shed, downed multiple trees, and pushed two mobile homes (not anchored) off their foundations.				
As the tornado tracked northeast of Highway 35, it intensified upon reaching Barbee Road. Here, it toppled more trees, completely destroyed a small barn, and snapped 4 or 5 wooden power poles. Tree damage became more consistent and widespread as the tornado continued northeast. The most significant damage occurred along County Road 33 just south of Ruby Johnson Drive. At this location, hundreds of softwood and hardwood trees were snapped, including many very large trees. Additional minor structural damage to roofing occurred to homes along Ruby Johnson Drive, and more trees along Belle Drive were snapped and uprooted.				
The tornado continued to snap trees and wooden power poles as it tracked northeast, reaching the grounds of the Bellefonte TVA Facility. Here, it snapped trees in at least three separate places on the west side of the complex. The tornado appears to have lifted just beyond the Bellefonte Facility.				
DEKALB COUNTY --- 1.3 ESE SYLVANIA [34.56, -85.81]				
	06/10/14 13:01 CST		0	Hail (1.00 in)

Storm Data and Unusual Weather Phenomena - June 2014

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
JACKSON COUNTY --- 2.0 NW YUCCA [34.82, -85.85], 1.4 ENE BRIDGEPORT [34.95, -85.71]				
	06/10/14 13:04 CST		0	Thunderstorm Wind (EG 87 kt)
	06/10/14 13:15 CST		0	Source: NWS Storm Survey
<p>Broad wind damage, almost exclusively to trees, was noted to the north of an EF-1 tornado track across the Stevenson and Bridgeport areas. Multiple trees were snapped and uprooted near Stevenson, particularly between the intersection of U.S. Highway 72 and County Road 137, and the intersection of U.S. Highway 72 and County Road 287. One tree snapped and fell onto a house south of County Road 137. Additional spotty tree damage was noted in downtown Stevenson west of Main Street.</p> <p>Significant widespread tree damage was observed in downtown Bridgeport. Tens of large trees were snapped and uprooted, in an area extending from Highway 277, northeast to the Tennessee River, and east of Bussey Avenue. Many if not all of the trees were facing in a northeast direction.</p>
