Numerous trees uprooted along Pleasant Valley Road. Damage to an agricultural building at Pleasant Valley High School.

CHEROKEE COUNTY --- 1.6 W LEESBURG [34.18, -85.78], 1.3 WSW BLUE POND [34.22, -85.74]

04/19/15 07:38 CST	0	Tornado (EF0, L: 3.52 mi , W: 200 yd)
04/19/15 07:43 CST	0	Source: NWS Storm Survey

A weak tornado touched down in extreme northwestern Cherokee County just northwest of the city of Leesburg . The tornado touched down along Keener Dr, west of state road 68, uprooting and snapping multiple hard and softwood trees. One of the larger hardwood trees unfortunately fell into a residence causing substantial damage to both the home and vehicle. Just further downstream, a barn was also destroyed by an uprooted tree along Bristow Gap Rd. The tornado was also at its widest point here of approximately 200 yards. The tornado continued north-northeast crossing State Road 68 causing damage to additional trees. The tornado lifted near the intersection of County Road 166 and County Road 670, but not before causing some minor porch and siding damage to another residence. Estimated peak wind was 80 mph.

RUSSELL COUNTY --- 3.5 S HOOKS [32.13, -85.23], 3.0 S HOOKS [32.14, -85.23]

04/19/15 07:43 CST	0	Tornado (EF1, L: 0.44 mi , W: 188 yd)
04/19/15 07:45 CST	0	Source: NWS Storm Survey

A debris signature from the Maxwell Doppler Radar (KMXX) prompted a storm survey in this very rural portion of Russell County. The majority of the debris signature was over inaccessible and waterlogged land. The tornado did snap and uproot numerous trees as it crossed Perry` s Well Road and in the surrounding forest. The path length is approximate due to lack of roads and inaccessibility. Estimated peak wind was 95 mph.

RUSSELL COUNTY --- 0.8 SSW OSWICHEE [32.27, -85.00], 3.7 ENE OSWICHEE [32.30, -84.94]

04/19/15 08:17 CST	0	Tornado (EF1, L: 4.32 mi , W: 425 yd)
04/19/15 08:26 CST	0	Source: NWS Storm Survey

National Weather Service meteorologists surveyed damage in eastern Russell County and confirmed a tornado . The tornado touched down south of County Road 18 just west of Highway 165. The tornado tracked northeast and crossed Highway 165 causing structural damage to several businesses in the drop zone market, removing the roof off a metal building, and tossing several rooftop air conditioning units. A large hardwood tree was uprooted in this same location. As it continued northeast, it crossed two subdivisions causing mainly roof and siding damage to numerous houses in the subdivisions. The tornado moved into the Alabama portion of Fort Benning , mainly over forested areas of the installation before reaching the Chattahoochee River. Estimated peak wind was 95 mph.

JEFFERSON COUNTY --- 0.6 W OVERTON [33.50, -86.71]

04/19/15 14:57 CST	0	Thunderstorm Wind (EG 50 kt)
04/19/15 14:58 CST	0	Source: Public

Numerous trees uprooted in the city of Mountain Brook.

ST. CLAIR COUNTY --- 0.5 SSE MOODY [33.57, -86.50]

04/19/15 15:25 CST	0	Thunderstorm Wind (EG 50 kt)

Storm Data and Unusual Weather Phenomena - April 2015

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

Large hail 3 miles north of Highway 278 on Highway 79.

A deepening short wave moving through the southern Plains States produced widespread lift across Alabama during the morning hours on April 19th. At the same time, a surface warm front lifted northward across south Alabama and pulled warm and unstable air into central Alabama. Several tornadoes formed in the warm sector south of the warm front. Later that day and into the overnight hours, a cold front approached Alabama from the west and triggered severe thunderstorms development, mainly across the northern portions of central Alabama.

BULLOCK COUNTY --- MIDWAY [32.08, -85.52]

	04/25/15 15:03 CST	0	Thunderstorm Wind (EG 50 kt)
	04/25/15 15:05 CST	0	Source: Emergency Manager

Several trees uprooted in the town of Midway.

RUSSELL COUNTY --- 2.0 NE COLBERT [32.30, -85.21]

	04/25/15 15:32 CST	0	Thunderstorm Wind (EG 55 kt)
	04/25/15 15:34 CST	0	Source: Emergency Manager

Several dozen trees uprooted in the town of Seale with some minor damage to a few outbuildings as well.

COOSA COUNTY --- 4.1 W STEWARTSVILLE [33.09, -86.32]

	04/25/15 16:18 CST	0	Thunderstorm Wind (EG 50 kt)
	04/25/15 16:19 CST	0	Source: Emergency Manager

A barn was destroyed on County Road 35.

A Mesoscale Convective System (MCS) moving along the central Gulf Coast Region moved into south Alabama during the afternoon and produced isolated severe storms across the southern portions of central Alabama.

ALABAMA, North

LAUDERDALE COUNTY --- 0.6 N CLOVERDALE [34.94, -87.77]

	04/03/15 17:36 CST	0	Thunderstorm Wind (EG 52 kt)

Several trees and power lines were downed by thunderstorm winds.				
DEKALB COUNTY --- 2.9 NE GROVE OAK [34.46, -86.02], 3.0 NNW TEN BROECK [34.46, -86.00]				
	04/03/15 19:15 CST		0	Tornado (EF0, L: 0.93 mi , W: 30 yd)
	04/03/15 19:16 CST		0	Source: NWS Storm Survey
A storm survey determined that a weak tornado touched down in the Fyffe , Alabama, community just east of the intersection of County road 545 and County Road 50. A few softwood trees were uprooted on the north side of the road . The tornado then moved east, crossing County Road 50 briefly, and uprooting some trees along County Road 536. The tornado then nearly paralleled County Road 50, destroying a large hay barn just east of County Road 528. The winds within the tornado along County Road 528 were estimated at around 85 mph with a narrow path of 30 yards. The tornado finally lifted west of County Road 539 after downing a few more trees.				
MADISON COUNTY --- NEW HOPE [34.53, -86.40]				
	04/03/15 19:50 CST		0	Hail (1.00 in)
	04/03/15 19:50 CST		0	Source: Public
Quarter sized hail was reported.				
CULLMAN COUNTY --- CULLMAN [34.18, -86.83]				
	04/03/15 20:03 CST		0	Hail (1.00 in)
	04/03/15 20:03 CST		0	Source: Public
Quarter sized hail was reported.				
DEKALB COUNTY --- 3.2 NNW SULPHUR SPGS [34.74, -85.62], 3.4 NNE SULPHUR SPGS [34.75, -85.58]				
	04/03/15 20:05 CST		0	Tornado (EF1, L: 2.29 mi , W: 75 yd)
	04/03/15 20:08 CST		0	Source: NWS Storm Survey
A tornado touched down in the Ider community of eastern DeKalb County , Alabama. The tornado first touched down along County Road 783. Numerous hardwood trees were snapped and uprooted. A small outbuilding was damaged near the intersection of County road 776. The tornado then tracked just north of County Road 776 before intersecting County Road 788.				
Damage to trees was fairly widespread in this area. Several homes or buildings also received minor roof or structural damage. The tornado reached its maximum intensity just west of Alabama Highway 75. One home there sustained significant roof damage with the majority of the roof removed. An anchored outbuilding was destroyed and several over homes sustained minor damage. Also, a power pole was snapped off and many large hardwood trees were snapped about 20 feet above the ground.				
The tornado then crossed Alabama Highway 75, snapping and uprooting trees along both sides of the road. The tornado began to weaken as it moved east-southeast, crossing County Road 372. Very minor roof damage was noted to a home and a few trees were uprooted . The tornado then dissipated on the east side of County Road 791 in the Cartersville, Alabama community after uprooting a few trees on the eastern slopes of Sand Mountain.				
A cold front intersecting a warm and unstable environment led to a broken band of thunderstorms during the late afternoon and evening hours, some of which were supercellular in nature. These storms moved east-southeast at 35-45 mph and exited northern Alabama between 930 and 10 pm CDT. One tornado was confirmed in DeKalb County with a few narrow swaths of wind damage reported in other portions of north Alabama.				
MADISON COUNTY --- 0.9 SW JEFF [34.81, -86.73]				
	04/16/15 04:50 CST		0	Hail (0.88 in)
	04/16/15 04:50 CST		0	Source: NWS Employee
Nickel sized hail was reported.

Around a dozen streets were flooded in Enterprise. There was one water rescue of an SUV that stalled in high water. More than a foot of water entered the downtown fire station requiring sandbags and moving furniture. Flash flooding also occurred along a creek along Dixie Drive. Water entered some homes and some residents were evacuated briefly in that area. Damage was estimated.

HENRY COUNTY --- 1.6 N CAPPES [31.51, -85.31], 0.8 SE MURPHY STATION [31.53, -85.28]

	04/19/15 07:46 CST		1M	Tornado (EF1, L: 2.10 mi , W: 300 yd)
	04/19/15 07:53 CST		0	Source: NWS Storm Survey

A short EF1 tornado track was surveyed just southwest of Abbeville, AL with max winds estimated at 110 mph. Eight railroad cars were flipped off their tracks along Alabama Highway 173 just south of a pulpwood plant. Otherwise, damage was confined to trees on the remainder of the path. A media article reported that it would cost around \$1 million to turn the railroad cars upright again.

Numerous trees and power lines were blown down in Columbia.				
<p>A line of severe thunderstorms tracked across the region on April 25th. Numerous reports of downed trees and power lines were received. This damage was scattered across a wide area with many counties affected. It is likely a widespread area saw wind gusts in excess of 60 mph with localized areas seeing wind gusts in excess of hurricane force based on the reports received and radar wind velocity data. Dothan was especially hard hit with power knocked out to most of the city through the overnight hours.</p>

Direct Fatalities: M16IW

On the evening of April 9th, 2 teenagers drowned in the Gulf waters off of Dauphin Island after being swept out by strong rip currents.

MOBILE COUNTY --- 2.4 SW HERON BAY [30.33, -88.16], 0.5 S FOREST HILL [30.71, -88.12], 3.5 NW PIERCIE [30.78, -88.42], 6.8 SSW GRAND BAY [30.38, -88.39]

	04/12/15 19:45 CST	0.20M	Flash Flood (due to Heavy Rain)
	04/13/15 01:45 CST	0	Source: Law Enforcement

A series of slow moving thunderstorms resulted in excessive rainfall and flash flooding over southern Mobile County . Numerous locations across the area reported rainfall totals in excess of 7 inches, with a few locations west of Tillmans Corner receiving just under 11 inches of rain. The highest rainfall report received was 10.94 inches from a CoCoRAHS observer 4 miles west northwest of Tillmans Corner. Mobile Regional Airport recorded a daily rainfall record of 7.28 inches for April 12th, with the majority of the rainfall occurring during the evening hours.

This copious rainfall in a short duration resulted in flash flooding and the closure of numerous roads. A portion of Halls Mill Rd was covered by nearly 6 feet of water. A person had to be rescued from a vehicle on McDonald Rd near Interstate 10. Another vehicle was submerged on Old Pascagoula Rd near McDonald Rd. A portion of Warren Creek Rd was washed out in Grand Bay. Several other roads across southern Mobile County experienced 2 to 3 feet of water flowing over them during the height of the event.

MOBILE COUNTY --- 1.9 WSW HERON BAY [30.34, -88.16], 0.7 SSE FOREST HILL [30.71, -88.12], 3.7 NW PIERCIE [30.79, -88.42], 7.5 SSW GRAND BAY [30.37, -88.39]

	04/13/15 01:45 CST	0	Flood (due to Heavy Rain)
	04/13/15 13:00 CST	0	Source: Law Enforcement

Widespread inundation persisted across southern Mobile County in the wake of the flash flood event. Numerous roads remained closed through midday, with water receding by early afternoon. By mid to late afternoon, all roads that were not damaged from the flash flood were reopened.

The combination of a stalled frontal boundary along the coast and near record levels of deep layer moisture resulted in several rounds of very heavy rain over southern Mobile County during the evening of April 12th into the early morning hours of April 13th. This heavy rainfall resulted in flash flooding over many locations.

CHOCTAW COUNTY --- 2.1 ENE WATER VLY [31.90, -88.35], 1.2 WNW SOUWILPA [31.82, -88.35], 0.6 W BARRYTOWN [31.83, -88.26], 1.3 S WIMBERLY [31.90, -88.27]

	04/16/15 23:00 CST	1.20M	Flash Flood (due to Heavy Rain)
	04/17/15 03:00 CST	0	Source: Emergency Manager

Major flash flooding occurred in the town of Gilbertown due to nearly 10 inches of rain that fell in a short duration. There were 10 businesses and 8 homes that experienced major flooding damage. Numerous wash outs also occurred on roads and bridges in and around Gilbertown.

Numerous slow moving thunderstorms moved across southern Choctaw County during the late evening of April 16th into the early morning hours of April 17th. Nearly 10 inches of rain fell in the town of Gilbertown and surrounding areas, producing significant flash flooding in the town.

CLARKE COUNTY --- 1.2 SSW THOMASVILLE [31.90, -87.74], DICKINSON [31.77, -87.72], 4.1 NE NETTLEBORO [31.84, -87.57], 6.8 SE ATKINSON [31.90, -87.59]

	04/17/15 07:28 CST	0	Flood (due to Heavy Rain)
	04/17/15 08:28 CST	0	Source: Emergency Manager

Heavy rains that occurred north of Clarke County in Marengo County resulted in the gradual rise of smaller creeks and streams across northern Clarke County. Several roads were closed due to water several inches deep covering the roadway.

WASHINGTON COUNTY --- 5.0 SW VINEGAR BEND [31.22, -88.41]

	04/17/15 17:50 CST	0	Hail (1.00 in)
	04/17/15 17:52 CST	0	Source: Emergency Manager

Numerous slow moving thunderstorms produced localized areas of heavy rain across southern Alabama.

ESCAMBIA COUNTY --- 5.0 NNW FLOMATON [31.07, -87.30]

	04/25/15 04:45 CST	5K	Thunderstorm Wind (EG 52 kt)
	04/25/15 04:47 CST	0	Source: Broadcast Media
