Brief floodwaters at the intersection of Washington Avenue and Tuscaloosa Street, or Town Branch, caused part of the road to break away. The intersection was closed while repairs were made to the road.

Clusters of showers and thunderstorms took advantage of a very moist atmosphere to produce very heavy rain in some areas. Rainfall of 2 to 4 inches occurred in the span of just a couple of hours in local areas of Madison and Jackson Counties leading to rapid runoff and flash flooding in a few locations. A couple of vehicles were swept off the road in the Hampton Cove area and along Slaughter Road in west Huntsville. A couple of roads were temporarily closed due to flash flooding in Madison County.
