

## Storm Data and Unusual Weather Phenomena - August 2020

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<b>ALABAMA, Central</b>				
<b>CHEROKEE COUNTY --- 2.1 NNW HOWELLS XRDS [34.21, -85.56]</b>				
	08/03/20 09:28 CST	0		Hail (1.00 in)
	08/03/20 09:28 CST	0		Source: Public
Quarter size hail reported in the Cedar Bluff area.				
<b>CHEROKEE COUNTY --- 0.9 SW LOOP [34.31, -85.63], 5.3 NNE CHESTERFIELD [34.52, -85.51]</b>				
	08/03/20 09:36 CST	0		Hail (1.00 in)
	08/03/20 10:16 CST	0		Source: Emergency Manager
A supercell storm with a well defined BWER produced a long swath of large hail across the northern portions of Cherokee County.				
<b>CALHOUN COUNTY --- PLEASANT RIDGE [33.72, -85.70]</b>				
	08/03/20 10:50 CST	0		Hail (1.00 in)
	08/03/20 10:51 CST	0		Source: Public
Quarter size hail reported along Choccolocco Road.				
<b>An upper level short wave trough was positioned over east Alabama during the morning hours on August 3rd. As the trough lifted out, a narrow band of thunderstorms developed rapidly near the Alabama and Georgia state line. Colder mid level temperatures over east Alabama aided in the storms production of large hail.</b>				
<b>ST. CLAIR COUNTY --- 2.1 N EDEN [33.61, -86.32]</b>				
	08/10/20 15:11 CST	0		Hail (1.00 in)
	08/10/20 15:12 CST	0		Source: Trained Spotter
<b>TALLADEGA COUNTY --- 4.7 SSW LINCOLN [33.56, -86.16]</b>				
	08/10/20 15:12 CST	0		Thunderstorm Wind (EG 50 kt)
	08/10/20 15:12 CST	0		Source: Emergency Manager
Several trees uprooted along Stemley Road.				
<b>TALLADEGA COUNTY --- 2.9 NW SHOCCO SPGS [33.48, -86.17]</b>				
	08/10/20 15:40 CST	0		Thunderstorm Wind (EG 50 kt)
	08/10/20 15:40 CST	0		Source: Emergency Manager
Several trees uprooted along Howells Cove Road.				
<b>LEE COUNTY --- 1.4 WNW SALEM [32.61, -85.25]</b>				
	08/10/20 17:17 CST	0		Thunderstorm Wind (EG 50 kt)
	08/10/20 17:17 CST	0		Source: Emergency Manager
Several trees uprooted near the intersection of County Road 183 and Highway 280.				
<b>LEE COUNTY --- 2.8 NNE WHATLEY XRD [32.54, -85.34]</b>				
	08/10/20 17:30 CST	0		Thunderstorm Wind (EG 50 kt)
	08/10/20 17:30 CST	0		Source: Emergency Manager
Several trees uprooted along County Road 66.				
<b>TALLAPOOSA COUNTY --- 3.5 W AGRICOLA [32.77, -85.79]</b>				
	08/10/20 17:39 CST	0		Thunderstorm Wind (EG 50 kt)
	08/10/20 17:41 CST	0		Source: Emergency Manager
Several trees uprooted south and southwest of the city of Dadeville, near County Road 42 and County Road 34.				
<b>BARBOUR COUNTY --- 0.9 SE HOWE [32.01, -85.16]</b>

<hr/>				
<b>MARION COUNTY --- HAMILTON [34.13, -87.98]</b>	08/28/20 15:00 CST		0	Thunderstorm Wind (EG 50 kt)
	08/28/20 15:00 CST		0	Source: 911 Call Center
Several trees uprooted in the city of Hamilton.				
<hr/>				
<b>WINSTON COUNTY --- 1.7 SE PLEASANT HILL [34.20, -87.43], 1.2 N MORELAND [34.27, -87.30]</b>	08/28/20 15:02 CST		0	Tornado (EF1, L: 8.75 mi , W: 325 yd)
	08/28/20 15:18 CST		0	Source: NWS Storm Survey
National Weather Service meteorologists surveyed damage in northeastern Winston County and determined that it was consistent with an EF1 tornado, with maximum winds near 105 mph.				
The tornado developed in a wooded area east of County Road 195. The tornado tracked northeast, crossing County Road 6 near Sandy Creek, where it caused minor timber damage. The tornado caused minor damage to the roof of a chicken house just off of County Road 415. The tornado continued northeast where it approached Highway 33 west of Moreland. The tornado caused notable timber damage as it crossed Highway 33, then it continued northeast across County Road 3163 where it removed sheathing from under a manufactured home, destroyed a small outbuilding, and removed portions of siding and sheathing from a manufactured home. The tornado then crossed County Road 63, or Cheatam Road, where it removed a portion of the roof from a manufactured home, damaged two garage doors, and blew out a window of an outdoor storage building. The tornado continued northeast before dissipating near Collier Creek.				
<hr/>				
<b>WINSTON COUNTY --- 4.5 W GRAYSON [34.29, -87.40]</b>				

## Storm Data and Unusual Weather Phenomena - August 2020

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	08/28/20 15:11 CST		0	Thunderstorm Wind (EG 50 kt)
	08/28/20 15:11 CST		0	Source: Emergency Manager

Several trees uprooted along Cranal Road at the Sipsey River Bridge.

---

### WINSTON COUNTY --- 1.4 NNW DOUBLE SPGS [34.17, -87.41], 2.4 NE DOUBLE SPGS [34.17, -87.37]

	08/28/20 15:36 CST		0	Tornado (EF1, L: 2.56 mi , W: 100 yd)
	08/28/20 15:41 CST		0	Source: NWS Storm Survey

NWS Meteorologists surveyed damage in northeastern Winston County and determined it was consistent with an EF1 tornado, with maximum winds near 95 mph.

The tornado developed near a mobile home manufacturing facility where it peeled portions of sheet metal from the roof of the building, removed some skirting from a modular building and blew out two windows from a vehicle. The tornado then crossed Highway 33 where it remained just north of County Road 24. The tornado continued east through wooded, uninhabited and inaccessible area. The tornado dissipated before reaching County Road 2, where there was no observable damage.

---

### LAMAR COUNTY --- SULLIGENT [33.90, -88.13]

	08/28/20 15:42 CST		0	Thunderstorm Wind (EG 50 kt)
	08/28/20 15:42 CST		0	Source: 911 Call Center

Several trees uprooted in the Sulligent area.

**Tropical Cyclone Laura moved inland over southwest Louisiana and tracked northeast along the Mississippi River. Several convective outer bands on the east side of Laura produced severe storms over Central Alabama. An abundance of tropical moisture coincided with areas of diurnal heating to promote an unstable atmosphere which also interacted with areas of favorable low-level wind shear.**

**Straight-line winds caused the majority of the damage both days, but a few tornadoes also developed during the afternoon of August 28th.**

## ALABAMA, North

---

### LAWRENCE COUNTY --- 6.0 E MOULTON [34.48, -87.17]

	08/04/20 15:57 CST		0	Thunderstorm Wind (EG 52 kt)
	08/04/20 15:57 CST		0	Source: Social Media

A power pole was snapped and a shed was demolished.

**A strong thunderstorm during the mid afternoon hours produced a microburst of strong winds in east central Lawrence County.**

---

### MARSHALL COUNTY --- 0.5 WSW GUNTERSVILLE MUNI AR [34.40, -86.28]

	08/07/20 15:45 CST		0.30K	Thunderstorm Wind (EG 35 kt)
	08/07/20 15:45 CST		0	Source: Social Media

Broadcast media relayed a social media report of thunderstorm wind damage at a campground and marina near Claysville. A tree was snapped and a couple of tents were overturned and damaged.

---

### MARSHALL COUNTY --- 0.6 S HENRYVILLE [34.41, -86.27]

	08/07/20 15:45 CST		1K	Thunderstorm Wind (EG 35 kt)
	08/07/20 15:45 CST		0	Source: Social Media

Broadcast media relayed a social media report of thunderstorm winds at the Guntersville sailing marina pushing boats into each other and knocking over one of the docks. Exact damages unknown. Time estimated by radar.

**One of several thunderstorms in northeast Alabama produced wind damage at a marina and adjacent campground in Claysville.**

---

### MARSHALL COUNTY --- 2.4 ENE MT CARMEL [34.39, -86.34]

	08/10/20 13:35 CST		0	Thunderstorm Wind (EG 52 kt)
	08/10/20 13:35 CST		0	Source: Emergency Manager

Trees were knocked down along Chalakee Road.

A tree was knocked down at 2235 Mulberry Lane. Time estimated by radar.				
<b>COLBERT COUNTY --- 1.2 N VALDOSTA [34.74, -87.72]</b>				

## Storm Data and Unusual Weather Phenomena - August 2020

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	08/13/20 13:56 CST		0.20K	Thunderstorm Wind (EG 43 kt)
	08/13/20 13:56 CST		0	Source: State Official

A tree was knocked down at Rivermont Drive at Oak Hill Avenue in Sheffield. Time estimated by radar.

**Clusters of thunderstorms developed during the early to mid afternoon hours in northwest Alabama. These produced gusty winds that knocked down a couple of trees in Colbert County.**

---

<b>CULLMAN COUNTY --- 1.5 NW HOLLY POND [34.18, -86.64]</b>				
	08/19/20 13:33 CST		0	Thunderstorm Wind (EG 52 kt)
	08/19/20 13:33 CST		0	Source: Emergency Manager

Thunderstorm winds damaged a chicken house on CR 1682 just north of CR 1650.

---

<b>CULLMAN COUNTY --- HOLLY POND [34.17, -86.62]</b>				
	08/19/20 13:33 CST		0	Hail (0.88 in)
	08/19/20 13:33 CST		0	Source: Social Media

Nickel sized hail was reported in Holly Pond.

---

<b>CULLMAN COUNTY --- HOLLY POND [34.17, -86.62]</b>				
	08/19/20 13:33 CST		0	Thunderstorm Wind (EG 52 kt)
	08/19/20 13:33 CST		0	Source: Emergency Manager

Multiple trees were knocked down blocking U.S. Highway 278 in Holly Pond. Trees were also knocked down at other location in this part of the county.

---

<b>LIMESTONE COUNTY --- 4.0 S SWEETWATER [34.57, -86.91]</b>				
	08/19/20 16:23 CST		0.20K	Thunderstorm Wind (EG 43 kt)
	08/19/20 16:23 CST		0	Source: Broadcast Media

A tree was knocked down on the southbound portion of I-65 just before the Tennessee River. Time estimated by radar.

---

<b>MORGAN COUNTY --- 0.9 NW HARTSELLE [34.44, -86.94]</b>				
	08/19/20 16:36 CST		0	Thunderstorm Wind (EG 52 kt)
	08/19/20 16:36 CST		0	Source: Broadcast Media

A large flag pole and large tree limbs were knocked down in Hartselle.

---

<b>MORGAN COUNTY --- 1.3 WSW AUSTINVILLE [34.56, -87.02]</b>				
	08/19/20 17:07 CST		10K	Lightning
	08/19/20 17:07 CST		0	Source: Newspaper

A school official reported a lightning strike damaged Austin Middle School in Decatur. From photos on social media, it appears siding from a brick tower at the front of the building was significantly damaged. A window was also shattered by falling debris. A newspaper reported that a radio link antenna was damaged, broken windows, and roof damage from falling bricks.

**Clusters of thunderstorms developed during the early afternoon in northeast Alabama, with activity shifting slowly west through north central Alabama during the early evening hours. The strongest storms knocked down a few trees and damaged a chicken house. Also, hail of dime to nickel sized was reported. Lightning struck a middle school in Decatur damaging a portion of brick tower structure and shattering a window from falling debris.**

<b>MADISON COUNTY --- 1.4 N HOBBS IS [34.55, -86.55], 1.5 N HOBBS IS [34.55, -86.55]</b>				
	08/23/20 11:13 CST		0	Tornado (EFU, L: 0.12 mi , W: 50 yd)
	08/23/20 11:21 CST		0	Source: Mesonet

A local research meteorologist located at Ditto Landing witnessed a tornado and possibly a waterspout at times on and adjacent to Hobbs Island along the Tennessee River. Mesonet cameras including one from the University of Alabama in Huntsville at the Severe Weather Institute, Radar and Lightning Laboratories (SWIRLL) captured the event. No damages were reported.

**A small shower developed during the midday hour near the Tennessee River at Ditto Landing on the Madison-Marshall County line. The shower produced a funnel cloud that descended at 1107 pm CST, and touched down as a tornado and/or waterspout from around 1113 pm CST and lifting around 1125 pm CST. The tornado was observed by a local research meteorologist at Ditto Landing who called in the report to the National Weather Service. The tornado from his viewpoint touched down at Hobbs Island, and possibly could have crossed onto the water as well. However, no damage was reported. Two other mesonet weather cameras also recorded the tornado from two**

<b>CULLMAN COUNTY --- 3.4 WNW JONES CHAPEL [34.24, -87.10], 1.5 SW BATTLEGROUND [34.29, -87.02]</b>				
	08/28/20 16:27 CST		0	Tornado (EF1, L: 5.56 mi , W: 115 yd)
	08/28/20 16:36 CST		0	Source: NWS Storm Survey
A storm survey concluded that the damage in northwestern Cullman County was consistent with an EF-1 tornado with winds up to 87 mph. It appeared that the tornado touched down near CR 1069 where it caused minor damage to a farm building and knocked down several small to large tree branches. Damage was noted on a path between CR 1069 and CR 1059. At CR 1059, several trees were either snapped or uprooted. The most intense damage was noted with two small farm structures that were destroyed and a single-wide mobile home that was knocked off its piers but remained upright. The mobile home remained attached to its straps and the straps to I-beams. However one I-beam and one strap were dislodged on the front end of the mobile home. The tornado continued between CR 1059 and CR 1082 near the CR 1083 intersection where more large trees were uprooted. The tornado continued between CR 1082 and SR 157 and then lifted before reaching SR 157.				
<b>CULLMAN COUNTY --- 0.5 W NORTH VINEMONT [34.28, -86.86]</b>

	08/28/20 16:40 CST		0	Source: Emergency Manager
Trees were knocked down north of the airport in Vinemont.				

## Storm Data and Unusual Weather Phenomena - August 2020

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<b>CULLMAN COUNTY --- 1.5 WNW COUNTY LINE [34.31, -86.72], 1.4 WNW COUNTY LINE [34.31, -86.72]</b>				
	08/28/20 16:58 CST		0	Tornado (EF0, L: 0.04 mi , W: 40 yd)
	08/28/20 16:59 CST		0	Source: NWS Storm Survey
A storm survey determined damage near Eva, near the Cullman-Morgan County line, was consistent with an EF-0 tornado with winds up to 84 mph. The tornado began in Cullman County where it caused tree damage in the form of large branches being knocked down before moving into Morgan County.				
<b>MORGAN COUNTY --- 1.0 SSW CENTER DALE [34.31, -86.72], 0.8 S CENTER DALE [34.31, -86.72]</b>				
	08/28/20 16:59 CST		0	Tornado (EF0, L: 0.18 mi , W: 40 yd)
	08/28/20 17:03 CST		0	Source: NWS Storm Survey
A storm survey determined damage near Eva, near the Cullman County and Morgan County line, was consistent with an EF-0 tornado with winds up to 84 mph. The tornado continued from Cullman County into Morgan County where maximum sustained damage was noted on Pentecost Rd. Here, the tornado destroyed a small storage structure built from cinder blocks. This small structure appeared to be unanchored and not reinforced which led to the collapse of the walls and the roof. Video evidence from this location also saw vehicles being lifted up and sat down and a boat being lifted up and pushed about 3 feet from its location. The tornado lifted in a field north of Pentecost Rd.				
<b>FRANKLIN COUNTY --- 1.1 ENE RED BAY [34.43, -88.11]</b>				
	08/28/20 19:56 CST		0	Thunderstorm Wind (EG 52 kt)
	08/28/20 19:56 CST		0	Source: Law Enforcement
Trees and power lines were knocked down on Newell Road. Several power outages in the area of Red Bay were reported.				
<b>Several miniature supercells and clusters of thunderstorms affected the area beginning during the late morning of the 28th and lasting through the afternoon. Two tornadoes occurred with these storms in Cullman and Morgan Counties. Several other reports of thunderstorm wind damage were received. During the evening hours, a secondary band of thunderstorms dropped southeast into northwest Alabama producing gusty winds and more localized wind damage.</b>				
<b>MARSHALL COUNTY --- 2.9 NE BIG SPGS [34.28, -86.38]</b>				
	08/30/20 11:30 CST		0	Funnel Cloud
	08/30/20 11:32 CST		0	Source: Social Media
Photos and video of a funnel cloud were received around 11:30 CST in the general vicinity of Pleasant Grove, near the southern end of Lake Guntersville. It is not clear if the funnel cloud touched down (i.e. land spout or waterspout). Location was estimated on multiple photo descriptions.
