COOSA COUNTY --- WEOGUFKA [33.02, -86.32]

| | | | | |
|--|--------------------|--|---|----------------------|
| | 05/18/23 18:35 CST | | 0 | Hail (2.00 in) |
| | 05/18/23 18:38 CST | | 0 | Source: NWS Employee |

Large hail removed leaves from trees with vegetation covering roadways.

A multi-day severe weather event unfolded across Central Alabama from May 16th through May 18th, 2023. An active northwest flow pattern coupled with a stalled out surface frontal boundary provided the ingredients necessary for strong to severe thunderstorms to develop during the heating of the day.

ALABAMA, North

(AL-Z002) COLBERT

| | | | | |
|--|--------------------|--|----|-------------------------|
| | 05/01/23 10:00 CST | | 2K | Strong Wind (MAX 30 kt) |
| | 05/01/23 17:00 CST | | 0 | |

A couple of trees were knocked down in Colbert County during the afternoon hours as west-northwest winds gusted at 35-40 mph.

| Trees were blown down at the intersection of Old Rail Road Bed road and Nick Davies Road in Harvest. Report relayed from MCSO. | | | | |
| <p>A band of thunderstorms developed during the afternoon hours in northwest into central Alabama, which lifted slowly northeast during the early evening hours. Very heavy downpours resulted in flash flooding in parts of northwest Alabama, including the Florence area. Rainfall amounts reached 3-5 inches in a few isolated locations. A gust front produced strong and gusty winds in parts of north central Alabama in Morgan and Madison Counties, knocking a few trees down in Harvest. A few storms became severe within this outflow producing damaging microbursts as well.</p> | | | | |

| Several trees were reported down off of Lentzville Road. Time was estimated from radar. | | | | |
| <p>An upper level trough of low pressure combined with a moist and unstable airmass triggered scattered to numerous thunderstorms during the afternoon hours. A few of the thunderstorms produced intense downpours, resulting in rain amounts of 2-3 inches in less than an hour. As a result, a few reports of flash flooding were received in north central Alabama. There were also a few reports of large hail and damaging winds.</p> | | | | |
