

Storm Data and Unusual Weather Phenomena - March 2024

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

ALABAMA, Central

LAMAR COUNTY --- 6.3 SSW MOLLOY [33.65, -88.26], 8.1 W FERNBANK [33.53, -88.27], 3.6 SSE KENNEDY [33.54, -87.95], 3.5 SE CROSSVILLE [33.69, -87.96]

03/01/24 08:00 CST	0	Flood (due to Heavy Rain)
03/01/24 11:00 CST	0	Source: Broadcast Media

Several reports were received of flooded roadways in southern Lamar County, especially the Kennedy area, after 2 to 4 inches of rain fell during the morning hours.

WALKER COUNTY --- 3.5 SE HILLARD [33.76, -87.53], 3.3 W CARONA [33.69, -87.53], 1.6 WSW MARIETTA [33.69, -87.42], 6.8 S MARIETTA [33.60, -87.42], 8.0 SSW GORGAS [33.54, -87.24], 3.0 NE EMPIRE [33.83, -86.96], 4.8 N SIPSEY [33.89, -87.09]

03/01/24 08:00 CST	0	Flood (due to Heavy Rain)
03/01/24 12:00 CST	0	Source: Broadcast Media

Several reports were received of flooded roadways in southern Walker County, especially the Oakman and Cordova areas, after 2 to 4 inches of rain fell during the morning hours. One roadway near Cordova was washed away and rendered impassable.

BLOUNT COUNTY --- 0.8 SW NYOTA [33.84, -86.76], 0.3 SSW VILLAGE SPGS [33.77, -86.63], 7.5 S CHAMPION [33.82, -86.43], 3.6 SE ONEONTA ROBBINS ARPT [33.94, -86.33], 0.9 NNW CHAMPION [33.94, -86.44]

03/01/24 09:00 CST	0	Flood (due to Heavy Rain)
03/01/24 12:00 CST	0	Source: Emergency Manager

Up to 4 inches of rainfall across southern Blount County during the morning led to several flooded roadways, including Highway 75 and House Rd near Remlap, River Rd near Highland Lake, and Fall Branch Rd along the Blount/St. Clair county line.

CHEROKEE COUNTY --- 3.3 W PINE GROVE [34.03, -85.76], 3.3 SSE KIRKS GROVE [34.13, -85.43], 0.8 E FULLERTON [34.30, -85.47], 1.3 W LEONARD [34.20, -85.84]

03/01/24 09:00 CST	0	Flood (due to Heavy Rain)
03/01/24 13:00 CST	0	Source: Emergency Manager

Roadways around Centre and Cedar Bluff, including Alexis Rd, County Road 22, County Road 118, County Road 617, and County Road 380, were blocked by standing water after up to 2 inches of rainfall.

ETOWAH COUNTY --- 2.7 SW MARKTON [33.85, -86.05], 4.5 ESE BALLPLAY [34.02, -85.75], 0.5 SSE HUFFS GAP [34.14, -85.85], 1.1 SSE PANA [34.02, -86.28]

03/01/24 09:00 CST	0	Flood (due to Heavy Rain)
03/01/24 13:00 CST	0	Source: Trained Spotter

Flooding was observed in parts of Etowah County after 2 to 3 inches of rainfall fell during the morning of March 1. Some roadways such as Tidmore Bend Rd, Cedar Bend Rd, and Lumley Rd were covered by standing water. Attalla City Park had standing water up to 6 inches deep in some places.

JEFFERSON COUNTY --- 0.6 NNW PALOS [33.66, -87.06], 1.4 N ARGO [33.70, -86.53], 0.9 NW COUNTY LINE [33.84, -86.76], 4.0 WNW WARRIOR [33.84, -86.88], 3.7 WSW CORNER [33.77, -87.00]

03/01/24 09:00 CST	0	Flood (due to Heavy Rain)
03/01/24 12:00 CST	0	Source: Emergency Manager

Up to 4 inches of rainfall across northern Jefferson County during the morning led to several flooded roadways, especially in the Morris, Warrior, and West Jefferson areas. Self Creek Rd along Self Creek remained impassable into the afternoon.

A shortwave trough approaching the Mississippi Valley from the central Great Plains, along with a surface low in the northwestern Gulf of Mexico and stationary boundary along the Gulf Coast, contributed to widespread showers moving across Central Alabama during the morning hours of March 1. A ridge located over the East Coast promoted easterly surface winds across the area, with temperatures in the upper 40s to lower 50s. A particularly heavy band of rain, oriented from southern Lamar County to northern Jefferson County to Cherokee County, dropped as much as 3-4 inches of rain, locally up to 5 inches, across a narrow swath. This resulted in numerous flooded roadways, mainly along waterways and in low lying areas, where drainage was slower to occur.

LAMAR COUNTY --- 2.9 SW MOLLOY [33.71, -88.24]

03/15/24 04:08 CST	0	Thunderstorm Wind (EG 52 kt)
03/15/24 04:18 CST	0	Source: Emergency Manager

A few trees were uprooted along County Lake Rd, McGill Gin Rd, and County Road 34.

Storm Data and Unusual Weather Phenomena - March 2024

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
WINSTON COUNTY --- 1.5 NNW ASHRIDGE [34.25, -87.48]				
	03/15/24 04:10 CST		0	Thunderstorm Wind (EG 54 kt)
	03/15/24 04:15 CST		0	Source: Broadcast Media
Numerous trees were uprooted in the Ashridge community along Highway 195. The highway was blocked by a large pine tree, while two trees, a pine and a maple, uprooted and fell into a house. Nearby, an open air lean-to metal farm shed was blown down. Other trees were uprooted in neighboring yards.				
LAMAR COUNTY --- 4.8 NNW FERNBANK [33.61, -88.17]				
	03/15/24 04:22 CST		0	Thunderstorm Wind (EG 50 kt)
	03/15/24 04:39 CST		0	Source: Emergency Manager
Several trees were uprooted sporadically along Mud Creek Rd, Ebenezer Rd, Steedley Rd, and Mount Pleasant Church Rd.				
FAYETTE COUNTY --- 4.4 SE BELK [33.61, -87.87]				
	03/15/24 04:47 CST		0	Thunderstorm Wind (EG 52 kt)
	03/15/24 04:55 CST		0	Source: Emergency Manager
Several trees were uprooted in the Belk area. A motorist drove into a fallen tree along County Road 1. Debris was scattered across the roadway near the intersection of County Road 4 and Highway 159. Near the intersection of County Roads 23 and 105, falling trees brought down power lines.				
BLOUNT COUNTY --- 2.2 SE CHAMPION [33.91, -86.40]				
	03/15/24 05:42 CST		0	Thunderstorm Wind (EG 59 kt)
	03/15/24 05:58 CST		0	Source: Emergency Manager
In Oneonta, power lines were reported down along 2nd Ave and County Highway 42. To the southeast, in the Highland Lakes area, trees were uprooted along Lakeside Dr. and several pine trees were snapped along Sycamore Dr and County Highway 20, with Sycamore Dr being blocked. In the Straight Mountain community, just to the southeast of Highland Lakes, downed tree limbs resulted in roof damage to a home.				
ETOWAH COUNTY --- 1.4 NNE (GAD)GADSDEN ARPT [33.99, -86.07]				
	03/15/24 05:50 CST		0	Thunderstorm Wind (EG 59 kt)
	03/15/24 06:25 CST		0	Source: Emergency Manager
Numerous trees were snapped or uprooted in the Altoona, Attalla, Gadsden, and Rainbow City areas. A couple locations had more concentrated areas of damage: Trees fell onto homes around Fayette St in the Camp Sibert neighborhood of Attalla and in the Clubview Heights neighborhood in Gadsden. Near the intersection of Highway 77 and Julie St, an auto repair shop had large bay doors blown out and partial wall failure on the second floor.				
ETOWAH COUNTY --- 4.8 ESE HOKES BLUFF [33.98, -85.79]				
	03/15/24 06:39 CST		0	Thunderstorm Wind (EG 52 kt)
	03/15/24 06:40 CST		0	Source: Broadcast Media
A tree fell onto an occupied vehicle at Young's Chapel Methodist Church, although the motorist escaped without injury.				
CHEROKEE COUNTY --- 1.4 ENE BOMAR [34.11, -85.56]				
	03/15/24 06:50 CST		0	Thunderstorm Wind (EG 52 kt)
	03/15/24 06:51 CST		0	Source: Emergency Manager
The roof was removed from a building along Highway 411 southeast of Centre.				
CALHOUN COUNTY --- 0.8 N (ANB)ANNISTON CALHOU [33.59, -85.85]				
	03/15/24 07:12 CST		0	Thunderstorm Wind (MG 52 kt)
	03/15/24 07:12 CST		0	Source: Official NWS Observations
A 60 mph gust was measured at Anniston Regional Airport ASOS station (KANB) at 8:12 AM CDT.				
MONTGOMERY COUNTY --- 3.4 NW PINEDALE [32.33, -86.28]				
	03/15/24 11:05 CST		0	Hail (1.10 in)
	03/15/24 11:15 CST		0	Source: Emergency Manager
Several reports of quarter-size hail or slightly larger were received in south Montgomery and Pike Road.				
RUSSELL COUNTY --- 3.9 SSE CRAWFORD [32.40, -85.15]				

Storm Data and Unusual Weather Phenomena - March 2024

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	03/15/24 12:37 CST		0	Hail (0.88 in)
	03/15/24 12:37 CST		0	Source: Broadcast Media

Nickel-sized hail was reported just east of Parkmanville.

A pre-frontal line of thunderstorms moved into western Alabama after 5 AM CDT on March 15, bringing gusty winds that led to damage across Lamar, Winston, Fayette, Blount, Etowah, and Cherokee counties. Much of the damage took place in the Ashdown community in Winston County, the Highland Lake area of Blount County, and the Attalla and Gadsden areas in Etowah County. Numerous trees were snapped or uprooted, with several homes having trees fall into them. Other isolated wind-induced structural damage was observed in Ashdown and Gadsden as well. As the thunderstorms progressed southeastward, a few hail reports were received in Montgomery and Russell counties.

(AL-Z013) FAYETTE, (AL-Z017) BLOUNT, (AL-Z034) BIBB

	03/25/24 17:15 CST	1	4.50K	Strong Wind (MAX 35 kt)
	03/26/24 02:00 CST		0	

Direct Fatalities: M64UT

Strong southeasterly gradient winds gusting to 35-45 mph across Central Alabama in advance of an approaching cold front resulted in sporadic tree damage and isolated structural damage. In Bibb County, one person was killed after being hit by a falling tree limb.

ALABAMA, North

(AL-Z001) LAUDERDALE

	03/01/24 00:00 CST		0	Drought
	03/19/24 00:00 CST		0	

The U.S. Drought Monitor continued to improve ongoing drought conditions from November 2023 to now with abundant rainfall continuing through the month of March. One tiny sliver of far Northwestern Lauderdale County remained in D2 - Severe Drought Conditions through the month of February and the first half of March. Finally, by the issuance on the 19th of March, all D2 conditions were removed from Lauderdale County.

Storm Data and Unusual Weather Phenomena - March 2024

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

DEKALB COUNTY --- 1.1 W TEN BROECK [34.42, -86.00]				
	03/15/24 05:50 CST		10K	Thunderstorm Wind (EG 52 kt)
	03/15/24 05:50 CST		0	Source: Emergency Manager

Damage was reported to two barn structures, with metal roofing blown off and a wall caved in. Time estimated by radar.

DEKALB COUNTY --- 0.2 ESE TEN BROECK [34.42, -85.98], 0.3 SE TEN BROECK [34.42, -85.98]				
	03/15/24 05:53 CST		0	Tornado (EF0, L: 0.19 mi , W: 77 yd)
	03/15/24 05:54 CST		0	Source: NWS Storm Survey

This tornado touched down just south of County Road 72 in Tenbroeck, Alabama. There was damage to the roof of a chicken house where roof panels were peeled off the structure. The structure is oriented from west to east with the roof panel damage oriented south to north indicating winds opposite of the primary storm motion. A second area of damage was to a pole barn that was pushed over along with the roof breaking off of its 4x4 support beams. The roof materials were spread to the east northeast which would have been away from the storm motion. A third area of damage was to a small barn which had several roof panels blown off. The structure was also leaning from west to east. The tornado lifted just south of the small barn with no other damage found.

	03/15/24 12:00 CST		0	Source: Broadcast Media

Flash flooding near Indian Creek Road at Blake Bottom Road with residential properties flooded. Depth of water unknown.

A line of strong to severe thunderstorms dropped southeast through north Alabama during the early morning hours of the 15th. Several trees were knocked down due to the high winds, especially in Morgan County. One brief EF-0 tornado also occurred in DeKalb County.

Heavy rainfall from thunderstorms repeatedly moving across portions of North Central and Northwestern Madison County resulted in flash flooding and water rescues. People drove their cars into the water in the wee hours of the morning, resulting in stalled vehicles and emergency services needed to assist people back to dry land. Later that morning, runoff from the heavy rainfall caused area creeks to swell and impact nearby roads and residential areas in further downstream on Indian Creek tributaries.

DALE COUNTY --- 0.9 NNW MABSON [31.47, -85.57], 0.7 SSW WARD BRIDGE [31.49, -85.50]				
	03/09/24 01:40 CST		0.20M	Tornado (EF1, L: 4.35 mi , W: 1020 yd)
	03/09/24 01:48 CST		0	Source: NWS Storm Survey
An NWS team conducted a combined aerial and ground survey. Aerial imagery indicated that the tornado touched down in a wooded area just west of Mabson Abry Road in Mabson, AL, snapping trees and causing significant damage to the roof of an outbuilding. The ground crew noted extensive tree damage along Mabson Abry Road, Caldonia Way and East County Road 36. A couple of utility poles were also snapped in this area. Aerial photographs indicated tree damage continued through a forested area between Mabson Abry Road and CR 33. The ground crew noted minor roof damage to a manufactured home near the intersection of Herman Strickland Road. Several more trees were snapped or uprooted further north along CR 33. Further east, more tree damage occurred on Herman Strickland Road where most of the structural damage was also noted. One home saw over 50% of its roofing material removed and a well-built outbuilding in the back yard had its doors blown in. The roof suffered some damage as well. Snapped trees were noted extending west into the woods. Further up the road, a home suffered the removal of its roof on the southern end of the house and the destruction of the back porch, much of which wound up on the roof. A large outbuilding in the back yard was shifted off its foundation. A neighboring home suffered similar damage to its house and large outbuilding. The tornado was at its strongest at this point with wind speeds estimated at 105 mph, which is EF-1 strength. Aerial photos indicated that tree damage occurred a bit further north along Herman Strickland Road and then east through a forested area, including the Cedar Creek, and then along CRs 335 and 337. The tornado then lifted before reaching Ward Creek.
