

U.S. Integrated Ocean Observing System (IOOS®)

Zdenka Willis, Director, U.S. IOOS Program
March 24, 2014

IOOS Works!

Operated By: Federal Component:

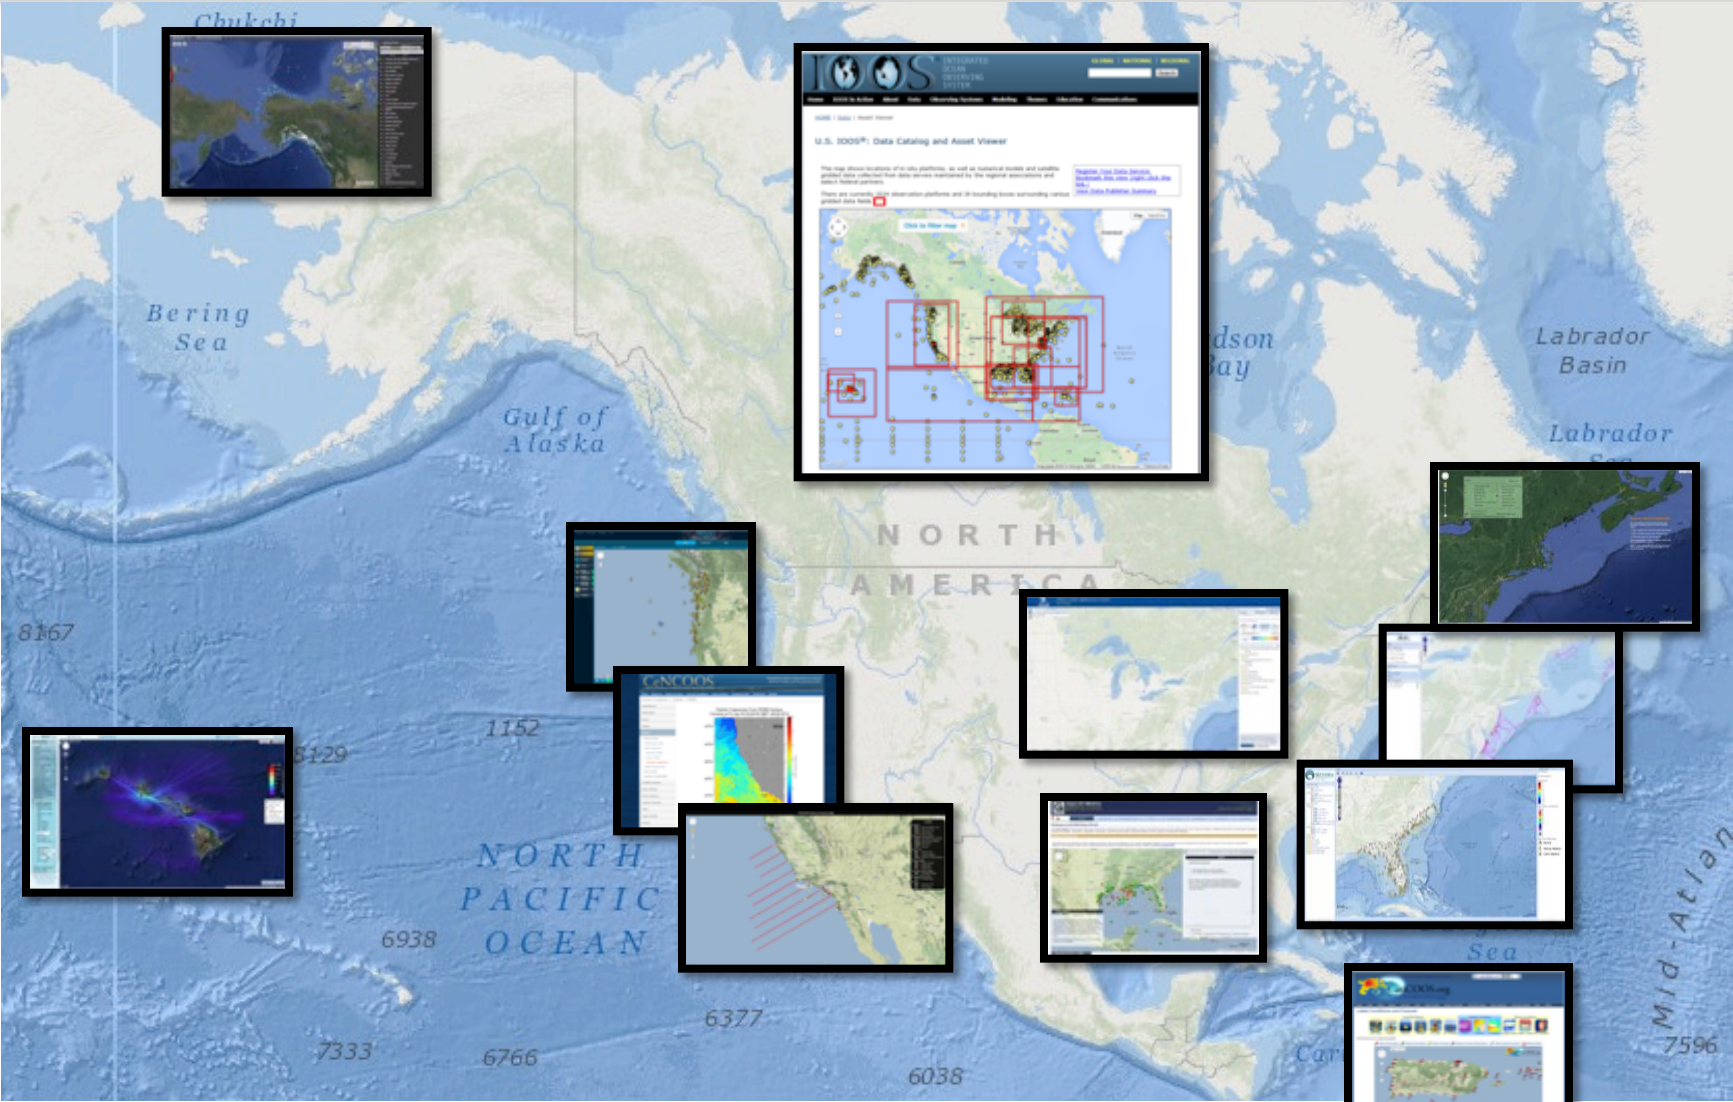

Regional Component:

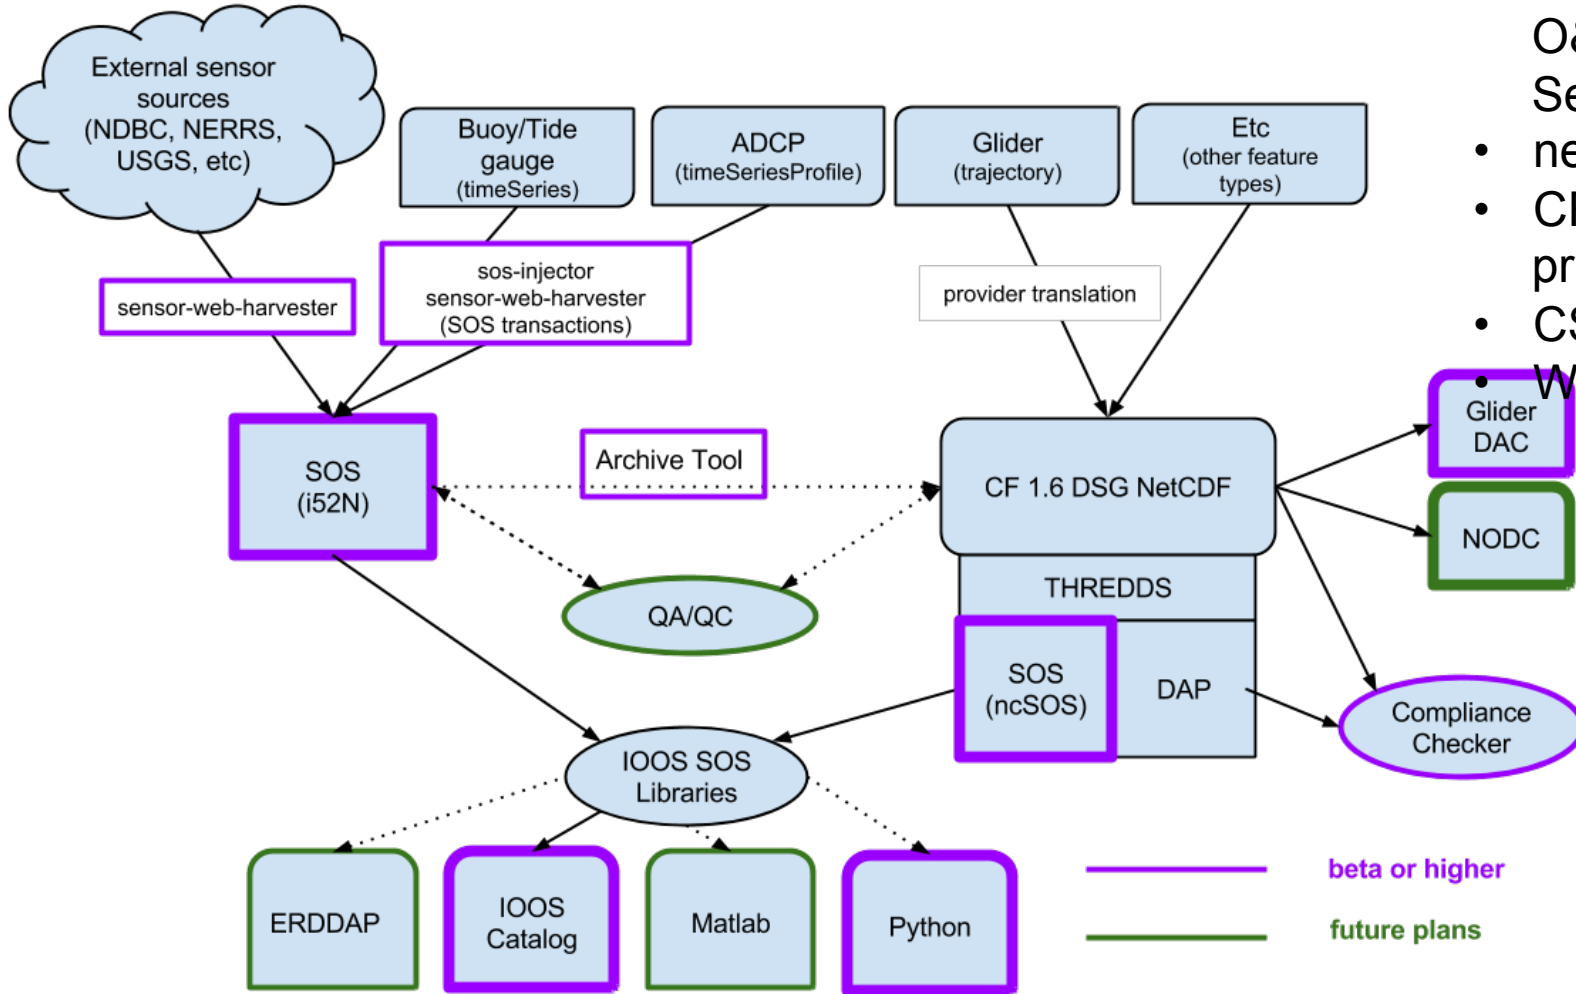

Eyes on!

Exposing Data!

Select OGC technologies in use by IOOS

- SOS/SWE/
O&M/
SensorML 1.0
- netCDF
- CF-netCDF
primer
- CS/W
- WMS

— beta or higher
— future plans

Use Case: Model Data comparison as a web service

Ocean profiling glider measuring 5000 individual profiles over 3 months along a 4D trajectory through space/time

33 Tb 4D model output on a triangular mesh grid

Plot the time series (or time-depth) glider sampled temperature on the same axis as the model simulation via web services.

Without

We wouldn't have

24% of wine

99% of shoes

97% of clothes

Almost all personal electronics

100% of

We wouldn't sell

Soybeans \$23b

Skin care & perfumes \$2b

Petroleum \$60b

Bus tires \$1b

Dumpers \$ 4b

Consumer Goods

\$570 billion in 2011

Capital Goods (Machinery, computers, engines, etc.)

Foods & Feeds

Industrial Supplies (Petroleum products, chemicals, etc.)

Other

Automobiles & Car Parts

We couldn't move

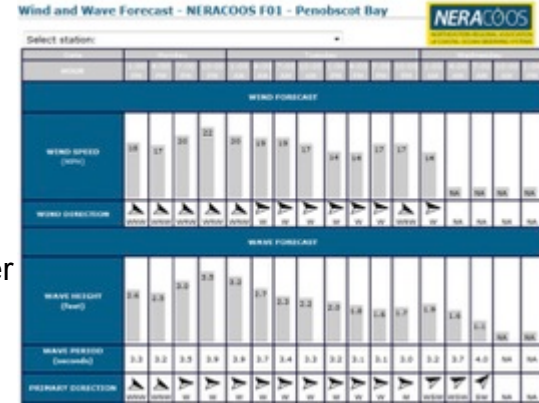

Without: Ocean Observations and Forecasts

IOOS – Regional Funded by NOAA

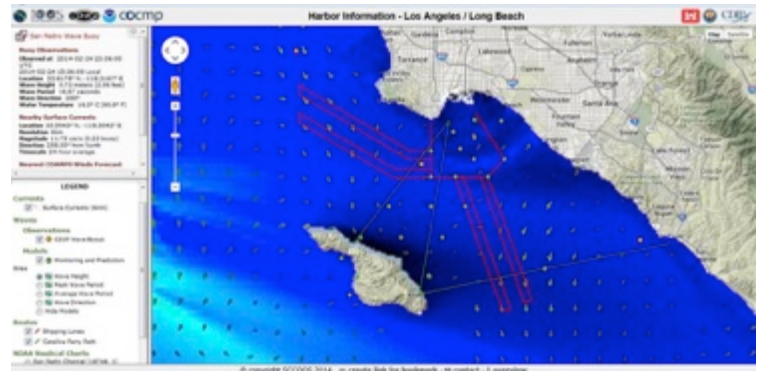

"The coast of Maine supports multi-million dollar fishing and tourism industries so when making decisions about bringing a 700 foot tanker full of fuel into port we need the best ocean and weather information possible, which is why we depend on IOOS buoy observations and forecasts to ensure safety and efficiency of these critical operations."

Captain David Gelinas, Penobscot River and Bay Pilot

NOAA's PORTS®

- 22 States
- Purchases equipment from 43 manufactures

Oysters on the Half Shell

+

+

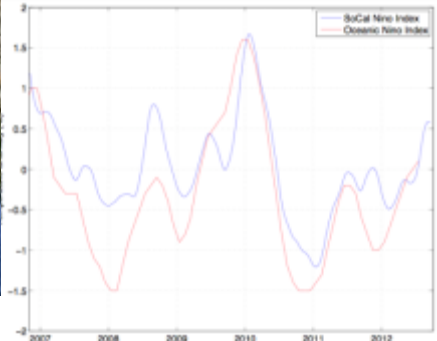

Little wild set of oysters on US northwest
2008 Whiskey Creek Hatchery lost 100% of oyster larvae
Ocean Acidification determined the cause
Real-time Observing System established with industry partnership
By 2010 productivity was back to 70%
Industry full participant in observing advancements and uses
industry assets to help maintain the system

Glider Missions

Climate/Ecosystem/Fisheries Management/Water Quality

CalCOFI

The SoCal Niño Index

Fish Tracking

HAB

Hurricane Forecasting

Response to Oil Spill

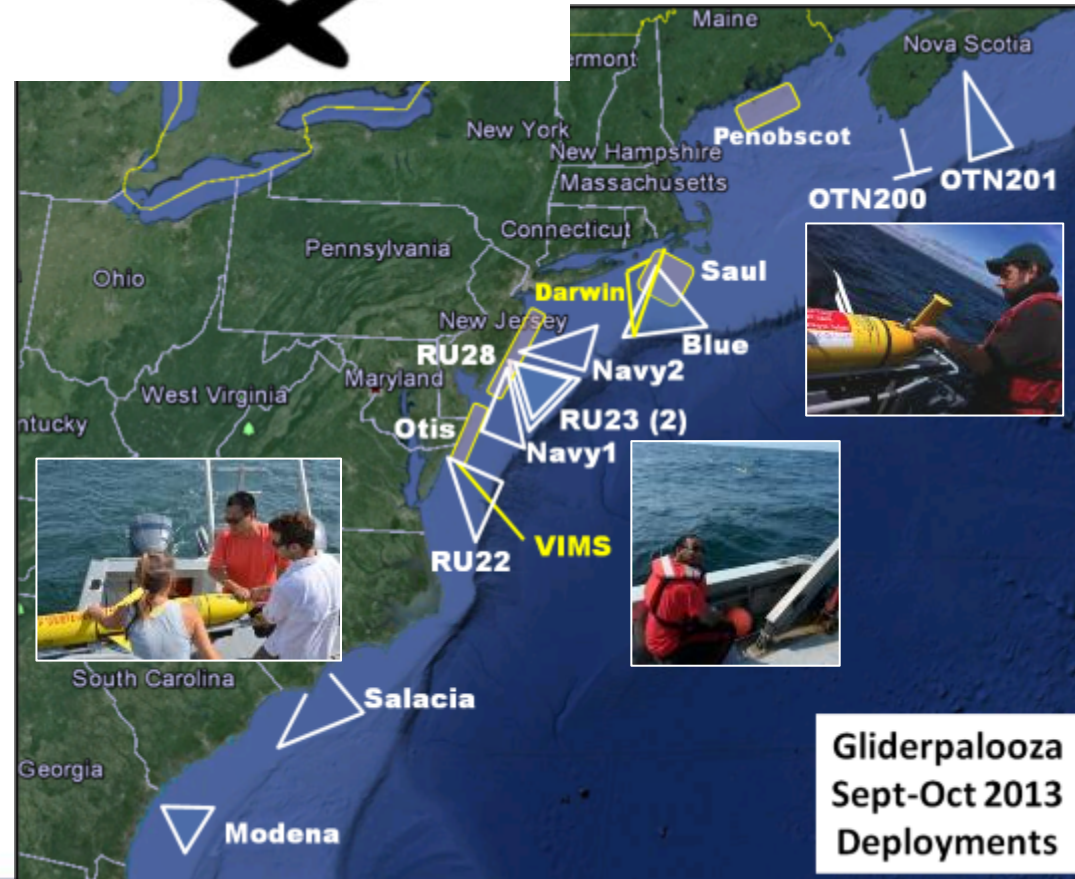

Deep Water Horizon

Alaska

US IOOS - Gliderpalooza

Gliderspalooza
Sept-Oct 2013
Deployments

- 15 gliders
- 15 Partners:
 - Ocean Tracking Network, Canada;
 - 9 U.S. Universities
 - Teledyne Webb Research Corporation
 - State Agency
 - National: IOOS, NOAA, US Navy and NASA
- >25,000 profiles to date
 - NOAA's Buoy Center sent data to the Global Telecommunications Systems (GTS)

Education and Outreach – Ocean Literacy

Graduate and Undergraduate students are integrated – good for IOOS now and good for industry for future employees

Basic Observational Buoy (BOB)
Educational project for universities and high schools to address STEM disciplines

Teaching the next generation – Puerto Rico Weather Camp 2012

U.S. Integrated Ocean Observing System (IOOS)

Enabling Decisions

Thank You
