

Creating A CoCoRaHS Condition Monitoring Account

In order to participate in CoCoRaHS Condition Monitoring, one must first create a CoCoRaHS account.

1. Navigate to www.cocorahs.org
2. Click "Join CoCoRaHS" on the left-hand side of the webpage
3. Select the country in which you will be taking observations. At this point, CoCoRaHS is available in the United States, Canada, and the Bahamas
4. Fill out the top half of the application form. It should look like this: For your station address, please use the address of the place you plan to monitor. This address will be used to pinpoint your report on the CoCoRaHS Condition Monitoring map.

Become a CoCoRaHS Observer

5. CoCoRaHS is primarily a rainfall reporting network, so some of the questions on the bottom half of the application may look strange. Not to worry. **You do not need to purchase a gauge to participate in Condition Monitoring.** Fill out the rest of the form following these steps:
- I. If you do not have a gauge, select “I will need to obtain this type of gauge.”
 - II. Under “Rain gauge will be emptied daily at:” select any time. It does not matter.
 - III. Check the box acknowledging that a 4” manual rain gauge is required for participation in CoCoRaHS. Again, **having a rain gauge is NOT a requirement for taking Condition Monitoring reports.**

Rain gauge
 You will need a high capacity 4” diameter rain gauge to participate in this network
 ([Why we don't use automated gauges.](#))

I already have this particular type of gauge.
 I will need to obtain this type of gauge.

How to obtain a high capacity 4” rain gauge:

- Order from <https://weatheryourway.com/collections/cocorahs-gauge-parts>

Rain gauge will be emptied daily at:

7:00 a.m. (highly recommended) 6:00 a.m. 8:00 a.m. Other Time PM

It is important to the CoCoRaHS that your rain gauge is read and emptied at the same time each day.

By checking this box I acknowledge that the 4” manual rain gauge (or the NWS 8-inch gauge) is **required** for participation in CoCoRaHS. [Why we use manual rain gauges.](#)

Would you or a family member like to volunteer for additional project duties?

YES, I would like to help.
 Please give the names and ages of others who will help you take rain & hail measurements:
 Name/Age: Name/Age:

Training Preference:

Train On-line Attend a Training Session Walk-in Training
