

ArcGIS Pro Initial Setup

ArcGIS Pro requires the license to be configured initially for each user account.

1. Double click the ArcGIS Pro icon on the desktop. At the bottom of the sign in window, click the green text: **Configure your licensing options**

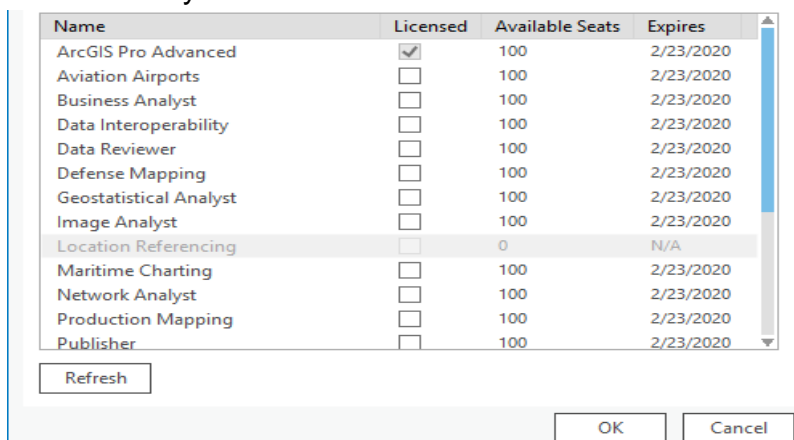

2. Click on the dropdown menu next to License Type and select **Concurrent Use License**

3. In the License Manager field, type in: **nvu-l-license01.nvu.vsc.edu**

4. Check any desired additional features under **Licensed** and click OK. ArcGIS Pro loads.
