

ACADEMIC PLAN

Between
College of DuPage Associate of Applied Science in Construction Management
and
Purdue University on behalf of Its Calumet Campus
Bachelor of Science in Construction Management and Engineering Technologies

Agreement

To earn a Bachelor of Science in Construction Management and Engineering Technologies at Purdue University Calumet requires a minimum of 120 credits.

Graduates from May 2010 onward of College of DuPage with an Associate of Applied Science in Construction Management may transfer and apply 66 credits from that completed degree toward the requirements for Purdue University Calumet Bachelor of Science in Construction Management and Engineering Technologies. Students will be admitted to Purdue University Calumet via the standard undergraduate admission process.

The curriculum details the course requirements for this transfer agreement, including remaining courses required to fulfill the baccalaureate degree requirements. Any substitutions for the approved list of courses must be approved by Purdue University Calumet.

Additionally, under the terms of this agreement:

1. A course grade of "C" or better must be earned to be accepted for transfer.
2. As COD graduates complete the 64 credit hour requirements at Purdue University Calumet for the award of the BS degree in Construction Management and Engineering Technologies, they must meet the graduation requirements as approved by the Purdue University Calumet at the time of the student's admission to Construction Management and Engineering Technologies (PUC) program.
3. Should a decision be made to modify or dissolve this agreement, students who are already attending Purdue University Calumet at the time will be permitted to continue as long as their academic performance remains in good standing.
4. Both institutions agree to notify each other of curriculum changes that impact this agreement.
