

# RENEWABLE ENERGY TECHNOLOGY, CERTIFICATE

---

The **Renewable Energy Technology certificate** is intended to train technicians in the field of electronics, electricity, mechanics, and computers related to the applications in the field of renewable and green energies. This certificate requires 14 credits in the courses listed below.

For more information about Electronics Technology, please visit the program page (<http://www.cod.edu/electronics/>).

## Certificate Requirements

Field of Study Code: ELECT.CER.RENEW

Code	Title	Credits
ELECT 1100	Electricity and Electronics Fundamentals	3
ELECT 1201	Renewable Energy Fundamentals	2
ELECT 2001	Green Energy Systems	3
ELMEC 1140	Commercial and Industrial Wiring	3
ELMEC 1150	National Electrical Code	3
<b>Total Credits</b>		<b>14</b>
