CHEMISTRY International March-April 2003 Volume 25 No. 2

Secretary General's Column	2
Features	
Canadian Participation in IUPAC <i>by Bryan R. Henry</i>	4
Countdown to Ottawa	5
New Directions for CHEMRAWN <i>by Parry Norling</i>	6
CHEMRAWN XII <i>by Ikenna Onyido</i>	
Chemistry, Sustainable Agriculture, and Human Well-Being in Sub-Saharan Africa	8
Clinical Chemistry & Laboratory Medicine <i>by Renze Bais</i>	10
IUPAC Wire	
It's a Chemical World—A Poster Competition	13
John Prausnitz Awarded the 2002 Rossini Lecture	13
Freedom of Access to Primary Experimental Data	14
Maintaining the Permanent Availability of the Digital Records of Science	15
The Project Place	
Structure and Properties of Polyester Elastomers Composed of Poly(butylene terephthalate) and Poly(ϵ -caprolactone)	16
Recent Advances in Electroanalytical Techniques: Characterization, Classification, and Terminology	16
Metrological Traceability of Measurement Results in Chemistry	17
Environmental Implications of Endocrine Active Substances	18
The Revision of the IUPAC Compendium of Chemical Terminology	19
Provisional Recommendations	19
Making an imPACT	
Nomenclature of Regular Single-Strand Organic Polymers	20
Natural and Synthetic Substances Related to Human Health	21
Isotope-Abundance Variations of Selected Elements	22
Bookworm	
Polymer Membranes	23
Green Chemistry Education	23
Trace Elements in Food	24
Chemistry of Crop Protection	24
Women in Physics	25
The Skeptical Environmentalist—Measuring the Real State of the World	26
Internet Connection	
www.ifcc.org	27
Conference Call	
Coordination Chemistry <i>by Franc Meyer</i>	28
Chemical Thermodynamics <i>by Gerhard M. Schneider</i>	29
Where 2B & Y	30
Mark Your Calendar	34

Naming Element 110
