

# Bristol Stool Chart

Type 1		Separate hard lumps, like nuts (hard to pass)
Type 2		Sausage-shaped but lumpy
Type 3		Like a sausage but with cracks on the surface
Type 4		Like a sausage or snake, smooth and soft
Type 5		Soft blobs with clear-cut edges
Type 6		Fluffy pieces with ragged edges, a mushy stool
Type 7		Watery, no solid pieces. Entirely Liquid

It is normal for infants and toddlers to regularly have stools (bowel movements) that look like types 5 to 7. Once your infant starts eating solid foods, the consistency of their stool may become more solid.

## To Learn More

- Gastroenterology - 206-987-2521
- General Surgery - 206-987-2794
- Reconstructive Pelvic Medicine - 206-987-1240
- Urology - 206-987-2509
- Ask your child's healthcare provider
